FRESNO, CALIFORNIA, SATURDAY, SEPTEMBER 3, 1910.

PRICE FIVE CENTS

LOS ANGELES MAY HAVE HER STATE ASSESSMENT RAISED

County Total Eighty Millions Less Than Fixed Last Year.

HEARING AT CAPITAL

Attorney for Equalization Board Shows Injustice of Present Figures.

SACRAMENTO, Cal., Sept. 2.—That the State Board of Equalization will materially increase the assessment roll of Los Angeles county was indicated when that county came up for review. Last year an increase of 40 per cent was made over the figures set by the assessor, and this year, it was believed that better showing would be made. However, Assessor F. W. Hopkins in his figures for this year is about \$80,000,000 less than those set by the state board.

On behalf of the board, J. N. Scott explained to the Los Angeles delegation the reason why last year's increase was made. He pointed out that investigation made by the board showed that in most instances, real estate and improvements showed but about 40 per cent assessment on the actual value. The law required 100 per cent assessment. In detail he told instances where in 84 cases of property showing a sale value of \$86,000, had been assessed at 34 per cent of sale price. Again where property sold for \$90,571 had been reassessed for 28 per cent of the sale price. And again where property sold for \$29,000 had been reassessed for 36 per cent of the sale price.

He pointed out that figures for twenty years prior to 1909 showed that in Los Angeles the state board had made an increase in the assessment roll of 115 per cent as opposed to an increase of 115 per cent made in San Francisco. He showed that in Los Angeles the capital stock of 108 bonds amounting to \$25,000,000 had been assessed at \$4,000,000, or but 16 per cent of the actual value. He showed that

Oakland with its 175,000 population was paying on its best property as high a front assessment, namely, \$32,288, as Los Angeles with its 315,000 population, which has for its highest front foot assessment \$3,665. He showed that property is being appraised for less in Los Angeles than in Oakland. He declared that the board should have made a 50 per cent increase last year instead of 40 per cent.

On account of a part of the Los Angeles delegation failing to arrive in time, not much was accomplished at the morning session.

The following representative men were present, however, to present the Los Angeles side of the case: E. W. Hopkins, Deputy Assessor E. O. Weed, C. D. Mannin and other members of the real estate board, D. C. McCabe, R. W. Pridham, George Black and Alex. Mackegan.

When the board had concluded with the Los Angeles hearing, the San Francisco case was taken up. Quite a delegation from that city was present and included Assessor Washington Dodge, Supervisor Walsh and Kelly, Clerk Hugger and the following representative citizens: A. L. Harrigan, William White, O. C. Steiner, A. H. Miller, J. R. Tobin, F. R. DeLise, J. R. Harrell, W. J. Blatton, M. W. Platt, J. C. Torget and Robert Skepton.

San Francisco's assessment for 1910 was placed at \$515,270,164. In 1909 it was fixed by its assessor at \$492,365,197 and was increased by the state board 146,225,184, or about 10 per cent. Los Angeles' assessment for 1909 was \$420,471,650. These figures were increased by the state board by \$86,730,114, or 40 per cent.

The figures submitted by the assessor for this year are \$522,511,644.

HEINZE'S MARRIAGE MAY DISGRACE A CLERGYMAN

Episcopalian Had No Right to Perform Ceremony for Divorced Woman.

NEW YORK, Sept. 2.—The recent marriage by an Episcopalian clergymen of Fritz Augustus Holze, the Montana copper king, to Mrs. Berneice Holton Henderson, who divorced her husband some time ago, has been called to the attention of Bishop Burgess, head of the diocese of Long Island. The canon of the Episcopal church prohibits the marriage of a divorced person and a minister performing such a marriage is liable to expulsion from the ministry as is ecclesiastical as well. Holze's marriage was performed by Rev. A. H. Handel of Brooklyn.

In reply to inquiries Bishop Burgess declined to say what action he would take in the matter beyond stating that he would communicate at once with the Rev. Dr. Handel and ask for an explanation.

There is some difference of opinion among the members of the Episcopal church as to the constitution to be put upon the canon. Many hold that it prohibits the marriage of persons against whom a decree of divorce has been pronounced, but does not prevent the marriage of the innocent party in divorce proceedings.

CHICAGO TO HAVE PAPER SODA. CHICAGO, Sept. 2.—Chicago's paper for pure soda water was won today when a petition for an injunction against the health department was withdrawn in the Superior Court.

COAL MINERS WIN FIGHT THAT LASTED FOR FIVE MONTHS

CHICAGO, Sept. 2.—At the close of a meeting of miners and operators that lasted until after midnight it was announced that the strike situation in the Illinois coal fields had virtually been brought to an end.

Although the settlement will have to be ratified by the Illinois Coal Operators' Association, that is said to be a mere formality.

In the settlement, the miners get the "sane's share" of their demand, only a few minor details having been changed. The full scale of wages and prices set by the Peoria convention will be paid by the operators. The conflict between the miners and operators has been fought for five months.

Figures Show Decrease of Accidents Caused By Sane Observance.

CHICAGO, Sept. 2.—Although the list of deaths and accidents due to the Fourth of July is appalling, the "sane's" observance of the day this year shows a notable improvement in this respect, according to statistics compiled by the Journal of the American Medical Association, made public here today.

The decrease in accidents is most marked in those sections where restrictive legislation has been put in effect," says the Journal. The summary shows:

Two thousand, nine hundred and twenty-three persons were injured July 4 this year, of whom 131 died. Sixty-seven deaths were due to tetanus.

nineteen were killed outright by firearms; eleven by explosions of powder, bombs or torpedoes, six by cannon or similar contrivances, while twenty-six mostly little girls, were burned to death by fire from fireworks.

Starting as it is showing, it is the best since 1903, when the Journal began keeping its record. In 1903, 4449 persons were injured, of whom 165 lost their lives, 408 of them dying from tetanus.

The grand total for eight years shows that 37,526 persons have been injured on Independence Day observance.

Of these 1563 died, 904 as the direct result of their injuries and 963 from tetanus following injuries. One hundred and twenty-two persons have lost their eyesight; 551 have lost the use of one eye; 432 have lost the use of arms, legs or hands, and 1541 have been crippled by the loss of fingers.

The detailed figures for 1910 show 72 cases of locking, 67 of which were fatal; seven persons lost their sight; 23 lost one eye; 26 lost arms, legs or hands, and 114 lost their fingers. The accidents were due to the following causes:

Blank cartridges, 298; fire crackers, 1650; cannon, 212; firearms, 120; powder and fireworks, 576.

The decrease from 1903 and 1910 is due to more intelligent methods of celebration, the most marked decrease occurring in states where the agitation for restrictive measures was most urgent. Massachusetts had this year only one-seventh of the injuries it had the previous year; Missouri, New Jersey and New York reduced their injuries to one-third; Illinois and Ohio to one-half; Pennsylvania reduced its injuries to two-thirds of last year. Indiana, Iowa and Illinois show larger totals than a year ago.

The following representative men were present, however, to present the Los Angeles side of the case: E. W. Hopkins, Deputy Assessor E. O. Weed, C. D. Mannin and other members of the real estate board, D. C. McCabe, R. W. Pridham, George Black and Alex. Mackegan.

When the board had concluded with the Los Angeles hearing, the San Francisco case was taken up. Harrigan, William White, O. C. Steiner, A. H. Miller, J. R. Tobin, F. R. DeLise, J. R. Harrell, W. J. Blatton, M. W. Platt, J. C. Torget and Robert Skepton.

San Francisco's assessment for 1910 was placed at \$515,270,164. In 1909 it was fixed by its assessor at \$492,365,197 and was increased by the state board 146,225,184, or about 10 per cent. Los Angeles' assessment for 1909 was \$420,471,650. These figures were increased by the state board by \$86,730,114, or 40 per cent.

The figures submitted by the assessor for this year are \$522,511,644.

ACTOR BARRYMORE MARRIES SECRETLY

Opposition of the Young Lady's Father Proves Useless.

NEW YORK, Sept. 2.—It was news to most New Yorkers today that John Barrymore, the actor, and Miss Katherine Portia Harris, daughter of Sidney Harris of this city, were married at noon yesterday at the Roman Catholic church of St. Francis Xavier in downtown New York.

Their engagement was announced early last month and on August 21 a marriage license was issued, but the date of the ceremony had not then been determined. There were present at the wedding only a few relatives and friends, and only few knew of the marriage last night. In fact the audience which witnessed the play in which Mr. Barrymore was the central figure had no inkling of the fact that he had already become a bachelor.

The marriage attracted considerable attention because of the opposition of Harris, the father of the young woman, who gave as his principal objection that he thought his daughter, who is only 18, too young to marry. His opposition took a decided turn in Paris recently, but it was of no avail, as Mrs. Harris and her daughter formed an effective coalition against him.

LOS ANGELES, Sept. 2.—Mark Keppel, Republican candidate for county superintendent of schools, apparently desires opposition. In the recent primary election he received the Democratic nomination over M. E. Pendleton, Democrat, on a technicality. It being held by the election board that Mr. Pendleton was disqualified in the cases where the letter "W." was substituted for "M."

In a letter to Albert M. Norton, chairman of the Democratic central committee, Mr. Keppel says:

"It seems evident to me that 200 Democrats attempted to vote for Mr. Pendleton and 233 attempted to vote for me. Merely therefore, it appears to me that Mr. Pendleton is entitled to the nomination. I trust the courts will be able to award to him legally that which is morally due him."

Los Angeles County Candidate Is Exceedingly Magnanimous.

NORWEGIAN SAENGERFEST BEGINS AT EUREKA

EUREKA, Cal., Sept. 2.—The first Norwegian Saengerfest ever held in California opened here today. The chorus consists of 260 voices, formed from choirs from cities west of the Rocky mountains. The Saengerfest will continue three days. Banners the mills will close for the first celebration.

There is some difference of opinion among the members of the Episcopal church as to the constitution to be put upon the canon. Many hold that it prohibits the marriage of persons against whom a decree of divorce has been pronounced, but does not prevent the marriage of the innocent party in divorce proceedings.

CHICAGO TO HAVE PAPER SODA.

CHICAGO, Sept. 2.—Chicago's paper

for pure soda water was won today when a petition for an injunction

against the health department was withdrawn in the Superior Court.

A banquet, the first function of the Saengerfest, was given tonight. Tomorrow will be given over to rehearsals.

The soloists who will appear are our full violinist; Miss Mata Gleeson

Hultfield, vocalist; Ed K. Urbin, pianist

and others.

OIL PRICES REDUCED.

NEW YORK, Sept. 2.—The Standard

Oil Company today announced a reduc-

tion of fifteen points in all grades of redined petroleum.

JAPANESE RICE PRICE.

NEW YORK, Sept. 2.—The official

crop at .06 below the average.

BARNES DEPLORES "HYSTERIA" OF ROOSEVELT'S CAMPAIGN

Leader of "Old Guard" at Albany Attacks Direct Nominations.

THE NEW YORK ISSUE

Fear That Judges May Be Required to Pledge Decisions in Advance.

FLAMES THREATEN BEAUTIFUL FOREST

Pine Woods on Palomar in San Diego County Are Endangered.

SAN FRANCISCO, Sept. 2.—William Barnes, Jr., Republican state committeeman and leader of Albany, issued a statement tonight in which he declared that "hysteria" has run riot throughout this country," and that the question to be decided at the coming Republican state convention at Saratoga is "whether the Republican party will fight the disease of hysteria in the interests of politicians seeking office or temporary acclaim."

"The character of the recent address of Theodore Roosevelt in the West," Barnes said, "has started all thoughtful men and impressed them with the frightful danger which lies in his political ascendancy."

When he talked with Colonel Roosevelt after the meeting that selected Vice President Sherman as temporary chairman of the convention over Colonel Roosevelt and learned his attitude toward "public matters," Barnes says he told the former President that he never could have voted for him.

Barnes' statement in part says:

"Hysteria has run riot throughout this country expressing itself in one form or another, such as 'direct nominations' and 'initiative and referendum' and 'initiative and recall'—it matters not what particular form the hysteria takes. The question to be decided at Saratoga is, whether the Republican party will fight the disease or succumb in the interests of politicians seeking office or temporary

acclaim."

The recent attack upon the Supreme Court of the United States by a keen witted and aspiring citizen could not have been made without a purpose well thought out. It was an appeal to passion. If this appeal against judicial decisions is popular and is not rebuked there is no reason whatsoever if a direct primary law should be enacted in this state, that candidates for judicial offices conducted to run the gauntlet of a district or state-wide primary would not, in order to appeal to the temporary sentiments of the moment, declare in advance their attitude upon matters which would come before them for judicial review."

At the conclusion of testimony of

Comptroller Miller and D. C. Mannin

and others of the real estate board,

Miller, D. C. McCabe, R. W. Pridham, George Black and Alex. Mackegan.

When the board had concluded with the Los Angeles hearing, the San Francisco case was taken up. Quite a delegation from that city was present and included Assessor Washington Dodge, Supervisor Walsh and Kelly, Clerk Hugger and the following representative citizens: A. L. Harrigan, William White, O. C. Steiner, A. H. Miller, J. R. Tobin, F. R. DeLise, J. R. Harrell, W. J. Blatton, M. W. Platt, J. C. Torget and Robert Skepton.

San Francisco's assessment for 1910 was placed at \$515,270,164. In 1909 it was fixed by its assessor at \$492,365,197 and was increased by the state board 146,225,184, or about 10 per cent. Los Angeles' assessment for 1909 was \$420,471,650. These figures were increased by the state board by \$86,730,114, or 40 per cent.

The figures submitted by the assessor for this year are \$522,511,644.

LOS ANGELES POWER BONDS ARE ENJOINED

NEW YORK, Sept. 2.—An injunction suit was filed in the Superior Court today to restrain the city from carrying out plans to immediately issue and sell \$3,500,000 bonds to develop power from the Owens river aqueduct. Percy H. Clarke, a real estate dealer, is the petitioner. Mayor Alexander and the city clerk and city treasurer are the defendants.

Clarke attacks the validity of the bonds on the ground that the city has no right to enter into competition with private power corporations, and cannot legally do so, as the corporation's action will affect the city.

Clarke's action will affect the city's

Clarke also claims that the city

has no right to issue bonds to develop power from the Owens river aqueduct.

The aqueduct is the only source of

water for the city.

The aqueduct is the only source of

ROOSEVELT PRAISES BURKE FOR HIS COURSE IN SENATE

AT FIELD CLUB.
OMAHA, Sept. 2.—Speaking to 500 business men, Theodore Roosevelt today pointed out the interest held by the people of Europe in the success of representative government in America and declared that reactionaries abroad cast aspersions upon American institutions, hailing with delight every story of graft and mob rule as an evidence that government of the people must fail.

Colonel Roosevelt also spoke contemptuously of the "merely multi-millionaire," the men who, he said, were a discredit whenever pointed to Europe as a typical American. He referred to mob rule as being equal to characteristics of cruelty equal to that which they seek to avenge.

This speech was made at a luncheon given by the Roosevelt reception committee at the Omaha Field Club, was frequently applauded.

Among those who listened attentively to the words of the colonel were Governor Shallenberger, Senators Burkett and Brown of Nebraska, Senator Dillier of Iowa, Mayor Dahlman, Victor Rosewater, Republican committeeman, and Representative Walter L. Smith of Iowa.

NO PLACE LIKE U. S.
"I have always felt friendly to foreign nations," said Colonel Roosevelt in beginning his address. "I have never believed that in order to show your love for your own country it was necessary to be insulting to the people of another country."

"I have a feeling of friendliness for the countries I visited abroad, even greater than I had before visiting them. But I have come back feeling that there is no place in the world, to me, but the United States.

"In the first place, there is a chance here for the average man, such as there is not anywhere else in the

FORWARD MARCH of Bronchitis, and deep seated Coughs is arrested by Dr. Pierce's Golden Medical Discovery.

In these wonderful conditions of the blood which invite Consumption in Europe, impeding Civilization and Welfare, the Discovery threatens you with this fatal disease, and with your help has failed—this medicine is a great remedy.

As a blood-cleanser, expectorant, and dash restorer, nothing like it is known to medical science. The Discovery "for purposes of the heart" is a complete cure for all diseases of the heart, and especially for those of the bronchial and pulmonary, and in every disease that is passed through the blood, makes bold to boast of cure. The Discovery is non-alcoholic, and its ingredients are packed in the bottle-wrapper.

Dr. Pierce's Discovery Relieves rheumatism, liver and bowels, convulsions, any disease, easy to take

Do Your Eyes Demand Help?

Don't neglect them too long. They may be all right, but it's best to be sure. I can tell you very shortly if they demand glasses. I can fit them for you in a way that will convince you that I have had extensive experience. When you get glasses from me they are the best that money can buy—though the price is moderate.

world. There is not another country where the average man, the man who cannot expect to get to the top, has a chance to lead his life with the success he can achieve here. In the second place, which is less important and still very important, it seems to me, there is no place in the world where the man who does get to the top has a chance to lead a life so attractive and full of interest in every way as in the United States.

NOT MERELY PLEASURE.

"Of course, if a man desires only to lead a life of pleasure, this is not a good country for it. There is no good country for it anywhere, for the simple reason that of all dismal careers, the most dismal, the most empty, the least worth living from any standpoint, is the career of the man who seriously devotes himself as his sole object to pleasure.

"First, to devote oneself to pleasure has the sole object of life is the surest way to destroy it. Any man about that lowest strata above the man merely seeking pleasure and enjoyment, can find here as nowhere else in the world an opportunity to help work out the great problems of the future and any man who is worth his salt ought to feel the most supreme pleasure over the fact that he is given the opportunity to try his hand to help work out these problems.

EUROPE WATCHING US.

"Everywhere I went abroad I was interested in finding that the leading statesmen of the various countries were watching us, were looking at what we were doing and were considering the methods we had tried to solve the difficult problems before us. They said that they were interested in us because the things we were doing today were the things they would have to do tomorrow or the day after.

"You are the pioneers in solving social problems in America and for the whole world. It is for you to solve these problems in the spirit of democracy. I need not say that that imposes a very grave responsibility upon us."

"Two other things impressed me. One was that the ordinary man, the man to whom life was pretty hard, was looking to us to realize the possibility of happiness on earth. The man who suffers injustice is looking toward this country as the place to which he would be free from the pressure of much injustice, as the place where the ordinary man could have a chance in life.

THE MERE RICH.

"There is another side to this picture. Everywhere I went there was a certain astonishment, mixed with a much less pleasing feeling over the accounts of business and political corruption that come to Europe about what happens here in America. I think you will probably admit me of great admiration of the mere multi-millionaire at home. But I like him even less abroad.

"I want to call to your attention that I have sold the mere multi-millionaire. There are good men in every walk of life and the man who is a good American who has done his duty and has a great fortune is entitled to our hearty respect and it is unworthy any one to deny it to him if he deserves it.

"I am speaking of the same class of millionaires of whom it was said two thousand years ago that it was more difficult for them to get to heaven than for a camel to go through the eye of a needle. It is the rich man who trusts to his riches that I am speaking of, the multi-millionaire whose sole title to distinction is the fact that he is a multi-millionaire. Such a one is a poor citizen and is a very objectionable American exhibit abroad.

"I was always ashamed when I saw that type of man accepted abroad as the typical American and I felt ever more ashamed when things happened here which gave the impression abroad that corruption in business and lawlessness and brutal violence obtained here more than they did in any other country.

BLOWS AT DEMOCRACY.

"Every corruption in our business or political life and every deed of violence by a mob is a blow at democracy, it is a blow at self-government.

The mob in lynching a criminal puts itself down on the same level of infamy that the criminal stands on. The big man of business who swindles the public or debauches a legislature, the grafting politician who blackmails a corporation, are all enemies of democracy and self-government.

Reports of such corruption and lawlessness bring joy to the hearts of every reactionary in Europe who wants to see popular government fail and who is glad to see that government by the people on a large scale can not succeed."

THE CORONATION.

With the letter of Major A. Sherman accepting the invitation of the Admission Day festival committee to participate in the parade there comes a breath of romance from the days of the Spanish occupation—not, however, the period of "the splendid idle 400," but rather the awash-buckling days of the fighting frontier, when the boundaries of the United States were marked out of blood and iron and the destiny of the Pacific was in the hands of men who gambled with their lives.

On the letterhead of the Associated Veterans of the Mexican War, which the acceptance of Major Sherman on behalf of his organization, the majesty of history is conveyed by the black lines that crosscut the roll of distinguished dead. William N. Hilton, secretary; Ferdinand Meyers, treasurer; L. Sellinger, marshal; Isaac M. Baker and Colonel John L. Bromley have all been mustered out since that letterhead was printed.

Only fifteen members of the association of veterans now exist, and nine of these will be present in the great parade on Admission Day. They will ride in carriages and will be given the place of high honor.

On Saturday there will be athletic events at the Golden Gate stadium, and aquatic swimming and rowing at the foot of Van Ness avenue, at which valuable prizes will be competed for by famous champions.

The torchlight and electric parade will represent "A Phantasy of Future Ages," in which something entirely new in the way of electric mechanical floats will be shown. Following this will be the carnival section with thousands of comic burlesque characters, and some startling mechanical effects in confetti artillery never before attempted. This section of the parade will end at the Auditorium, where the great masquerade ball will take place.

When 10,000 people throng into the Auditorium on the night of September 10th to join in the fun of the brilliant masquerade that will be the climax of the Admission Day festival.

COLORFUL NIGHT.

San Francisco will show the world that she has restored something more than her architectural individuality. This colorful night will be an expression of the jolly, care-free spirit which, more than anything else, has made this the best-loved city in America. This night will be more San Franciscan than anything that ever happened in the old days.

The painters, the sculptors, the musicians and the actors of the city have determined to make of this exciting twelve hours that will linger in the memory two generations hence.

It is not the costly prizes that have been offered for the best sustained character, the best sustained group, the most elaborate costume and the most original costume that have inspired the different parades to their present pitch of rivalry, but rather the desire to show the vast concourse of visitors who will be in San Francisco for the celebration that the Golden Gate is worthy of her reputation as the most entertaining hostess of the Western hemisphere.

EVERYTHING'S BETTING.

The setting of this evening—the decorations, the costumes, the music—has been arranged by the best artists in the West; but the charm of the night will be the spontaneous fun that comes to life only in old San Francisco and is born every minute. The art-loving, songful Italians and French, the picturesque Orientals and the descendants of the old pioneers—good fellows and aragonauts of adventurous race, will join to stir up a stirrup-cup to the heating hours.

While the masquerade ball will be taken by San Francisco as the best opportunity to show the appreciation of the nation that has been shown her by the Native Sons and Daughters, she will be hard pressed if she seeks to maintain a reputation for originality in carnival ideas, for every parish in the state has something distinctive to reveal on the night of September 10th. The night will be truly representative of the sunny temperament of a sunny state.

ADMISSION DAY PLANS INSURE NOTABLE FESTIVAL

State's Sixtieth Birthday
to be Greeted With Joyous Acclaim.

Three Day Pageant Promises to Surpass Portola Celebration.

SAN FRANCISCO, Sept. 2.—Through streets that will be a wonderland of waving color and which will be lined by thousands of spectators, Queen California will wear her way, escorted by her army of military and retinues to Union Square, there to be crowned to mark the third day's festivities to be held in celebration of the sixtieth anniversary of the admission of California to the Union of states. This will be the inaugural procession of the Admission Day festival, which begins on September 8th and lasts until September 10th.

"You are the pioneers in solving social problems in America and for the whole world. It is for you to solve these problems in the spirit of democracy. I need not say that that imposes a very grave responsibility upon us."

"Two other things impressed me. One was that the ordinary man, the man to whom life was pretty hard, was looking to us to realize the possibility of happiness on earth. The man who suffers injustice is looking toward this country as the place to which he would be free from the pressure of much injustice, as the place where the ordinary man could have a chance in life.

THE MERE RICH.

"There is another side to this picture. Following this will be the carnival section with thousands of comic burlesque characters, and some startling mechanical effects in confetti artillery never before attempted. This section of the parade will end at the Auditorium, where the great masquerade ball will take place.

When 10,000 people throng into the Auditorium on the night of September 10th to join in the fun of the brilliant masquerade that will be the climax of the Admission Day festival.

COLORFUL NIGHT.

San Francisco will show the world that she has restored something more than her architectural individuality. This colorful night will be an expression of the jolly, care-free spirit which, more than anything else, has made this the best-loved city in America. This night will be more San Franciscan than anything that ever happened in the old days.

The painters, the sculptors, the musicians and the actors of the city have determined to make of this exciting twelve hours that will linger in the memory two generations hence.

It is not the costly prizes that have been offered for the best sustained character, the best sustained group, the most elaborate costume and the most original costume that have inspired the different parades to their present pitch of rivalry, but rather the desire to show the vast concourse of visitors who will be in San Francisco for the celebration that the Golden Gate is worthy of her reputation as the most entertaining hostess of the Western hemisphere.

While the masquerade ball will be taken by San Francisco as the best opportunity to show the appreciation of the nation that has been shown her by the Native Sons and Daughters, she will be hard pressed if she seeks to maintain a reputation for originality in carnival ideas, for every parish in the state has something distinctive to reveal on the night of September 10th. The night will be truly representative of the sunny temperament of a sunny state.

Embroidery Sale This Morning at 9

Thousands of yards of beautiful Embroideries, Swisses, Cambrics & Nainsocks, in both open & closed patterns.... Corset coverings, flounceings and all-overs w/ h 75c a yard, included.

News of Central California Towns

CRAZY CHINAMAN SHOOTS PEOPLE OF DINUBA MAY MERCHANT, THEN KILLS HIMSELF

Double Shooting Occurs in China Alley; Merchant May Recover.

Would-Be Murderer and Addition Is to Be Erected to New Hotel; Notes of General Interest.

HANFORD, Sept. 2.—While in a demented condition, Young Jen, a wealthy and dangerously wounded Young Yuen, a Chinese merchant, shot and killed his own life with two bullets in the abdomen. The shooting occurred this evening in the rear of 14 China Alley. The double crime is attributed to an insane impulse, perhaps induced by fancied grievance. Jen, once a wealthy merchant, had lost his money and was working as a grape picker. He was indebted to Yuen's firm and was urged to pay up. A week ago he accepted Sue Chung Kue and declared that white men were after him to kill him.

Yuen was shot in the head and in the abdomen. The wound in the head was a grazing one and not dangerous. The bullet, however, is considered serious, but not necessarily fatal.

A very light rainfall started the fruit growers of Kings County at an early hour today. The amount was not sufficient to do either damage or good, yet it served as a warning to those who are interested in fruit drying. It is believed that the fall rains will be earlier than usual this year.

The Kings County fair is being well advertised at the state fair, now open in Sacramento, through the enterprise of N. C. Blanchard.

A force of forty men and a number of teams are at work on the Hanford Summit Lake railway between Hardwick and Kings River. Ten carloads of material have been received, which assures the speedy completion of at least a part of the road. President Charles King is giving his undivided attention to the work.

Captain Sidney John of the Hanford Drives is anxiously awaiting a reply from President Garman to his letter requesting that the two disputed games between Hanford and Madera be declared "no contest" and that will refuse to play the previous series of three games with Madera unless the dispute is at least ironed out.

Out of gratitude to his brother fire fighters, Wm. Bernstein will treat the Hanford volunteer fire department to a supper on their next regular meeting night. The City Bakery, of which Mr. Bernstein is the proprietor, has suffered several slight losses from fire and on each occasion the firemen have prevented much loss by their prompt and energetic action.

Physical Exhaustion

When you feel weak, tired out, and unrefreshed by sleep or when your appetite and digestion are poor, you will find its use invaluable.

ORGANIZE CREAMERY COMPANY THERE

Large Dairy Interests Are Seeking Establishment of New Plant.

Would-Be Murderer and Wealthy Merchant.

HANFORD, Sept. 2.—Since the famous Clark & Kennedy ranch was purchased by the J. Z. Kleinberger interests, the dairy industry has been rapidly increased there until now the colonists are milking over 100 cows and they state that they expect the number will soon be increased to 300. Because of this fact they have appealed to the people here to establish a creamery in order that they may be able to dispose of the cream here at home rather than send it to Selma and other points. There are a large number of Mennonite colonists settling on the ranch and the cream output there is large and would mean a great deal to a creamery here. The old creamery plant may be remodeled for the purpose and this large volume of business diverted to Dinuba instead of being sent away as at present.

Haden & Boone Company, owners of the brick hotel here known as the Commercial, have proposed to build an addition to the structure extending back to the alley and including new kitchen and dining room downstairs with a large addition to the bedroom facilities upstairs, including up-to-date baths and other conveniences.

The proposition to make the hotel one of the most modern in the valley and thus maintain a hostelry here that will be in keeping with the growth of the town.

The new Holthund building which has been in course of construction has been so far completed that the first room has been occupied by the A. L. Dickey harness store. The new Wilson buildings on Main street are rapidly nearing completion and will be ready for occupancy in about a week.

Already the Haden & Boone brick adjoining the opera house is occupied and as soon as Oliver's Model store moves from the Adobe on the corner next week, the work of dismantling the place to make room for the new bank building, will be started.

The contract for the erection of the bank has been let to B. F. Sproat, a local contractor, and the building will be a one-story brick, faced with granite. It is to be strictly modern in every particular and will be elegantly finished inside.

The plums for the race meet to be held on September 10th and 11th at the Ruching race track near Sultana, and about two and a half miles from Dinuba, are rapidly being completed and the meet promises to be a very interesting event. Some of the most interesting events in the valley have been entered, including golf, strings from Foster and Purcell, and some fast events are planned.

Invitations have been issued for the wedding of Miss Amelia Liebau and Frank H. Smith, which will take place at the home of the bride's parents, Mr. and Mrs. William Liebau, near Orosi, next Wednesday evening, September 7th. Mr. Smith is a resident of Coalinga, where the young people will reside.

The wedding of Miss Clara Ashburn and John F. McCraig has been announced to take place on September 14th, and will be at the home of Mr. and Mrs. William Liebau, near Orosi.

Word was received here yesterday of the wedding of Carey Hargraves of this city, and son of Rev. and Mrs. J. H. Hargraves of the Baptist

church, and Miss Luella Raymond of Chico, just night at the home of the bride in that city. Young Hargraves left here a few days ago, ostensibly to visit friends in Chico, and nothing was intimated of his approaching nuptials until yesterday.

The stemming of new crop raisins was started at the big Griffin & Shelly packing house here yesterday. This is rather early this season.

I. Bice has been selected as the member of the committee for the growers and R. J. Kirk for the company, in setting the packing charges for the Farmers' Union Packing Company here and these two gentlemen will in a few days select the third member of the committee.

The wedding of Miss Clara Ashburn and John F. McCraig has been announced to take place on September 14th, and will be at the home of Mr. and Mrs. William Liebau, near Orosi.

Mr. and Mrs. Orval Galser, of Coalinga, the latter a granddaughter of J. A. Boyd of this city, are rejoicing over the birth of a daughter at the Boyd home near here on Friday. The little lady is the fifth living generation of the Boyd family, and is being entertained with considerable enthusiasm.

The union service to be held at the church Sunday evening will be the closing service this summer. Rev. Dechman of the Presbyterian church will be the speaker.

Diarrhoea is always more or less prevalent during September. Be prepared for it. Chamberlain's Colic, Cholera and Diarrhoea Remedy is prompt and effective. It can always be depended upon and is pleasant to take. For sale by all dealers.

REEDLEY WILL BOND FOR FIRE PROTECTION

System Proposed Involves Expenditure of About \$3000.

REEDLEY, Sept. 2.—A special election will be held in Reedley, September 12th, to vote a special tax for the purpose of establishing a fire district in this city. The amount which will be necessary to provide suitable fire protection will be approximately \$3,000. In all probability, the tax the first year will be 1 per cent of the assessed valuation of the city property and one-half of 1 per cent each year after. The fire district which will be voted upon will include 360 acres, comprising the first district of the town of Reedley.

T. L. Reed and D. L. McKee have been appointed judges of the election. W. L. Shibley and James Gilligan, clerks.

There is little doubt that the project will carry since Reedley citizens have come to the definite conclusion that better fire protection is badly needed. The water main will be extended through the center of town so that the business section will have ample protection. A modern chemical engine will be purchased for the protection of the residential sections removed from the water mains. A large quantity of new hose and a new hose cart will also be purchased.

T. K. Tyson, of Alva, Oklahoma, special representative for the American Baptist Home Mission Society, of New York City, was present at the meeting of Baptists at the First Baptist church last night and gave a short address. However, no definite action was taken in regard to retaining him as pastor and he left for Los Angeles this morning where he will meet his wife. While here he was the guest of Mr. and Mrs. J. B. Moonaw.

A shipment of new books from the Fresno county library has been received at the Reedley free public library and the volumes on the shelves ready for use. The reading room is free and open to all.

J. A. Hardin and wife, who have been spending some time in the southern part of the state, have returned home. They made the trip from Los Angeles in Mr. Hardin's automobile and report a pleasant trip.

Dr. J. C. Glascow, who has been taking a post-graduate course in osteopathy at the Kirkville school, has arrived in Reedley with his bride and will again open his office in the Lodge building.

The Reedley baseball team will cross bats with the crack team from Parlier Sunday afternoon at 2:30 o'clock on the Reedley diamond. The game between the two teams in Parlier last Sunday was won by Parlier.

Mr. and Mrs. Alex Barnes, who were called to Bakersfield by the serious illness of Mrs. Sproat, Mr. Barnes' sister, have returned. Mrs. Sproat underwent an operation in Fresno the first of the week, an appendicitis and is recovering rapidly.

With many thousands of trees of peaches, plums and grapes on the drying ground, fruit men were today anxiously viewing the threatening clouds which seemed to indicate the approach of rain. A heavy downpour would result in many hundreds of dollars' loss. Considerable satisfaction has been given from the weather bureau which predicts only cloudy sky for tonight and fair weather tomorrow. A few drops of rain fell at intervals today.

Plans are being made to cause a flow in the streams, with a consequent flow in Mill creek, might cause a serious delay in the completion of the aqueduct and concrete bridges now in process of construction.

Castan Vizalia, I. O. O. F., met night when further arrangements were made for the reception of the other companies of the battalion to be in Vizalia on the 9th, including those of Hanford, Fresno and Porterville. Battalion drill will be engaged in at the ball park in the afternoon and morning and armament will be served at noon.

On Saturday evening the 10th, the 10th will be engaged in the ball park in the afternoon and morning and armament will be served at noon.

Mr. and Mrs. C. H. Glashop and daughter are home from a trip to Gridley and vicinity in the northern part of the state.

Mr. and Mrs. C. H. Glashop and children are home from Long Beach.

Mrs. John Lovell of Los Angeles, who had been the guest of Mrs. Swank for several days, left this morning for her home. Mrs. Lovell, who is a teacher in the Los Angeles city schools, is the owner of an orange grove near the community in this country.

John New and family have returned from an extended visit in Missouri, Kansas, Utah and Colorado.

Mrs. Charlotte Hawes of Los Angeles, a relative of H. P. Grant, who has been a guest at the Grant home, has returned south.

Asians dumped into a feed trough near the Indian & Iowan warehouse this morning caused a blaze which was extinguished by aid of a garden hose before the arrival of the department. The damage was slight.

DANISH SAILOR IS SENT TO ASYLUM

Has Hallucinations—That He Is Several of the World's Great Men.

All in One.

MADERA, Sept. 22.—W. Smedeger

who believes he is the governor of the state and several potentates rolled into one was committed to the state insane asylum this morning, by Judge G. E. Church. Drs. Rutin and Reid examined Smedeger, and pronounced him demented. Smedeger kept up a continual talking and smiling and insisted on his sanity, offering to prove it by holding up his hat in his left hand. He also offered to prove that his appetite is good by Mr. Roosevelt. The insane man claimed he came from Denmark in a vessel ten years ago and made several trips as a sailor.

Charles Townsend, who works on P. C. Eastin's ranch, met with an accident this morning that nearly caused the loss of a finger on his left hand. He was taking pipe out of a pump when the pipe slipped and struck his finger, tearing the flesh from it. Dr. Reid took six stitches to dress the wound.

James Vincent returned today from Yosemite Valley, where he spent the summer, and reported that the bears

WORTH SAVING

The Republican party is worth saving! Founded in an era of moral revolution, as an insurrection against vested wrongs, it has continued the one vital and progressive force in American public life. From the day of its birth, it has to its credit all the substantial achievements of American progress. Under its guidance, this nation has readjusted itself to the greatest social and economic transformation the world ever knew. The material interests of the nation have been safeguarded, its unity and honor preserved, and its institutions carried in safety a long journey forward on the path of freedom. At every crisis the Republican party has taken the course which history has justified. At every crisis it has been opposed by a policy which it is now known would have been disastrous. The Republican party has the confidence of the people. Its progressive policies have been safe ones. It has never been ruled by doctrinaires who would push a logical conclusion to a ruinous end. It accomplishes things in the way that they can be accomplished, at the time when practical success is possible.

A party with such a history, with such an asset of tradition, of public confidence and established loyalty, is worth saving. And it is being saved. It has just been saved in California. Theodore Roosevelt is in process of saving it with the big stick in New York. It is about to be saved with the big stick in Ohio. It is saved in Kansas, Iowa and Wisconsin. It is in process of salvation everywhere.

A few months ago, political news were foretelling the birth of a new party. They have stopped, now. For the party is already born, and turns out to be the Republican party itself, reincarnate. There is no need of a ~~new party~~ with the old one rejuvenated. That rejuvenation is already accomplished.

Wasn't it worth while?

ORIENTAL LABOR

Nearly all the county platforms of both parties contain planks declaring in some form against Oriental labor, usually with an especial side-wipe at the Chinese, who are just now the most unpopular form of that labor. Invariably the state platforms of both parties will contain similar planks, perhaps of a more dignified and careful sort, and the next legislature will take such action as is proper (it may be hard to keep it from taking more than is proper) to the same end.

This California reproduces the report of Labor Commissioner Mackenzie, who reported that our industrial institutions could only be maintained by introducing a population that would undermine our social and political nose, and that, in such a case, we should give the preference to the industrial side. There are of course persons in California who agree with Commissioner Mackenzie, just as there are persons (a startling number of them) who do not believe in popular government. But every responsible public opinion is opposed to both these heresies, and the responsible opinion of California emphatically repudiates them.

The chief obstacle to an absolute community, on this question, is found in one country sort of superficial arrogance. On the one side is found the demagogues of the Asiatic Exclusion League, and on the other the self-sufficient dodos who imagine that there is no anti-Oriental sentiment except the aforesaid demagogues.

The Asiatic Exclusion League is managed by a pair of unscrupulous demagogues, who do not have nor deserve the confidence of the public. They are engaged in doing pernicious politics, and unless they are watched they will tie up an unruly minority of the next legislature to pledges of rash action, which will discredit the whole movement, as well as endanger the reputation of California for good sense.

On the other hand, the sneering arrogance of the usual pro-Japanese is about the most wearing thing on the temper to be found in contemporary California life. If a personal reminiscence may be permitted, the writer happened to have opportunity, year or two ago, to give national circulation to the views generally held by near-sighted Californians on this subject, and he has been thereby given exceptional occasion to bump also against the criticisms of near-sighted Californians. The most frequent hostile comments were two, one reflecting on his honesty and the other on his intelligence. One comment, repeated scores of times by persons who evidently did not comprehend that it was an insult, was this: "Of course you realize that you have sense enough to know that we know more the Japanese, but not here to take that position in the public." The other, expressed less frequently, but as often, was, "Nobody in the world except shallow persons, thinking to labor under the sun, are a pair of both parties, by the way, of the population, and a few others, who are

**BRIEF EDITORIAL
FANCIES SELECTED**

Hasten
Slowly

The Bee does not want to be misinterpreted upon this Panama-Exposition proposition to bond the state for \$5,000,000 to help San Francisco in the great event of 1915.

This paper is not opposed to such bonding. On the contrary, as at present advised, it believes it would be a good thing for California to vote this money.

There is absolutely no hope that the taxpayers of the state of California will vote for it, unless the proposition is presented in a thoroughly business way: unless the state has charge of the finances, unless San Francisco shows not only a subscription list, but the money, etc., etc.

These matters have been pointed out by the Bee. They are now being widely discussed by the press. The problem will have to be solved by the legislature and solved aright before it is presented to the people.

And the journal or the man that advises the legislature to go a little slow in this matter and formulate a \$5,000,000 bond amendment to the constitution, gotten up in a business-like manner, and so safeguarded that it will have a chance at the polls, is a better friend to the exposition project than is the journal or the man that counsels the legislature to "rush the thing through in a day or two," thus practically inviting almost inevitable defeat at the November election.

**The Death of a
Brilliant Thinker**

The sudden announcement of the passing away of Professor William James, psychologist and philosopher, has been read with deep regret and sorrow in all educated circles, American and European. The loss sustained by the thinking world is very heavy.

Professor James was one of the most original, vigorous, scientific philosophers this country has produced, and he had in addition the rare gift of a lucid, stimulating, fluent, imaginative style.

He made the higher philosophy and psychology vital and interesting to students. His lectures were always "popular," and even at Oxford his unconventional presentation of abstract subjects excited profound agitation and enthusiasm. Even where his thought was not really new his manner and method transfigured it and lent it novelty, charm and fertility. The new movement and stir in metaphysics and philosophy described as "Pragmatism" by Professor James is in substance and most adroitly expounded, although he recognized in Professor John Dewey, formerly of Chicago University, its practical founder. His best work is doubtless contained in his last two or three masterly books, including "A Pluralistic Universe," recently published.

Professor James believed in bringing philosophy down to earth and elevating life to the philosophic plane at the same time. He never neglected the burning moral and social questions of the day. His discussion of war and peace, his suggestion that there is a moral "equivalent" for what is noble and disciplinary in military life, his investigations of so-called spiritual phenomena, his contributions to educational literature and his application of sincere, truthful, enlightened reform activities are well known to his readers, admirers and students.

The realm of ideas and philosophic literature can ill afford to lose minds and personalities of Professor James' exceptional type.—Chicago Record-Herald.

Secretary Ballinger

Grows Loquacious

Secretary of the Interior Ballinger assures us that "I have done as much for conservation as any man; I've been attacked for insisting on legal methods."

The Secretary has done a lot for conservation. By trying to put the Guggenheims in possession of Alaska's coal he aroused such a popular storm against himself that everybody knew he was to blame.

By trying to betray us, the Secretary became a son of a popular benefactor, in that he called our particular attention to the attempted took of Alaska.

"What is there about conservation," inquires the loquacious Ballinger, "that calls for excitement, bitterness of spirit or contention?" So might also the burglar ask when caught at his nefarious vocation, he is pursued, shot at and sent to prison.

What is there about the attempted larceny of Alaska's wealth that should not "call for excitement, bitterness of spirit and contention?"

Glay's, Pinchot, Shaw, Kerby, Price and others who exposed Ballinger have fallen under the Ballingerian displeasure and the Presidential anger because they dared stand for the rights of the people against the Guggenheims. He would be a shabby American citizen who would not become excited and show bitterness of spirit at the spectacle of these faithful public servants being punished because they did their duty to the people.

Balked by a popular uprising from turning over to the power trust the power sites of the country and to the Guggenheims the inconceivably great wealth of Alaska, Secretary Ballinger declares that he favors turning over the water power sites to the states. As everybody else does, Ballinger knows that that would mean the surrender to the power trusts of the power sites, which the national government kept, in spite of Secretary Ballinger, from being granted.

POSTAL SAVINGS.

President Taft will take up with his cabinet in Washington the final plans for putting the postal savings bank in operation. He will discuss the estimates for the coming fiscal year with the heads of the various departments and try to hold them down wherever possible. The economy plans for conducting the various departments and the best means of using the \$100,000 appropriation for the improvement of business methods also will be discussed.

There is little or no chance that President Taft will make any speeches during the coming campaign. He has declared that his letter to Chairman McKinley of the Republican congressional committee accurately states all that he has to say of the issues.

The President will speak before the National League of Republican Clubs in New York along general lines.

Forster P. Brown of Tennessee, attorney general of Porto Rico, took up several matters affecting that island with the President. He also discussed the political situation in Tennessee.

Tomorrow afternoon, the President starts from Boston to St. Paul, where he is to deliver an address at the National Conservation Congress Monday morning.

**DEMANDS INQUIRY
IN CAR STRIKE**

COLUMBUS, O., Sept. 2.—Governor Harmon by letter today called upon Attorney General Donman to take up a mail jury phone of the Columbus street car strike, as he did in the grand lynchings. Donman is now at Lakeland, Mich. His assistant said tonight the department would begin work as soon as Donman returned.

NOTED CHEMIST DIES.

PHILADELPHIA, Sept. 2.—Prof. Frederick Augustus Cope, Jr., formerly of the department of chemistry at the University of Pennsylvania, and widely known as an expert, died at the home in Lansdowne, where he had just left night of Bright's disease, aged 65 years.

**GROVE L. JOHNSON WRITES
A SKETCH OF SON HIRAM****A Very Remarkable Bit of Campaign
Literature Which Certainly Makes
Most Entertaining Reading.**

The Oakland Tribune asked Hon. Grove L. Johnson to write a sketch of his son, Hiram W. the Republican nominee for Governor of California. The veteran responded with an article which is evidently uninteresting and therefore the Republican copied it in full as follows:

Hiram Warren Johnson, Republican candidate for Governor of California, made his first bow before a small but enthusiastic audience in Sacramento, California, September 2, 1866. He was a big, fat, good-natured, ten-pounder, and I know because I was present at the time.

These matters have been pointed out by the Bee. They are now being widely discussed by the press. The problem will have to be solved by the legislature and solved aright before it is presented to the people.

He had a pair of lusty lungs that served then to force attention upon him, as they have so well done for him in the recent past. As a boy he was bright, active, full of life and healthy child, rosy frolic and fight, in both of which he excelled.

HIRAM AND THE BULLDOG.

As a little boy he had as a companion, a white English bulldog, who thought as much of Hiram as it was possible for a dog to think of his master, and Hiram loved him almost as much as he did his home.

WEATHER CONDITIONS

GENERAL CONDITIONS
During yesterday the barometric pressure continued to fall over California and the southern plateau, and it is now below normal over this section this morning. An area of high pressure has moved inland over the northwest. This pressure distribution has resulted in unsettled weather in California with some cloudiness but no rain had fallen up to 5 a.m. at any reporting station of the weather bureau in this section. The temperature has fallen decidedly over the Canadian Northwest and the north Rocky mountains under the influence of the rising pressure over those sections.

Unsettled weather with some cloudiness will prevail during this afternoon and tonight but no rain is expected. Saturday will be fair.

W. E. BONNETT, Local Forecaster.

Air temperature 59
Highest temperature yesterday 91
Lowest temperature yesterday 66
Humidity (percentage of) 22

AGENCY IS SELLING SURPLUS OIL, REPORT

TAKE NOTE OF WORK ON LARGE RESERVOIR
Four Tons of Cement Used to Cement Off Casing in Six Acres.

Standard and Associated Are Buying Independents' Production.

EXPLAINS PRICE CUT

Announcement to Be Made Today of Deal in Los Angeles.

A report was received in this city last night, from a reliable source, in which it was stated that announcement will be made today in Los Angeles that the Associated and Standard Oil Companies have purchased all the surplus oil now in the hands of the Independent Producers' Agency. This will include the Lakeview oil, which the Agency controls.

If this is so, as reported, the recent cut in price of oil at the well and on the bar, as announced by both the Associated and Standard, will be fully explained.

As stated before, this move reveals the fact that the Agency is making a strenuous endeavor to control all outside oil, not already contracted for, and surplus is to go to the other companies. When the first cut in the price of oil was announced, it was reported that the Agency had sold oil to the other companies and had inserted in the contracts a provision whereby these companies were to cut the price and later developments have tended to verify this report.

STARLIGHT IS IN VERY RICH SAND

SAN FRANCISCO, Sept. 2.—Word just received from Manager F. E. Coban of the Starlight Oil Company, Section 21-22-23, North Midway, that when they drilled through the cement at 980 feet with 16-inch casing they found that the water had been well shut off, and that they were in a very rich oil sand. This sand has continued for 115 feet, being streaked with thin layers of shale. In which the oil is growing lighter with depth. At 1070 feet a stratum of very rich, light oil was encountered, continuing to 1075 feet, the depth now. It looks now as if they will bring in a good well within the next few days.

SAYS HE WAS ROBBED; LEAVES WHEN OFFICER COMES

An unknown man telephoned to police headquarters last night that he had been knocked down and robbed in the rear of the White Pawn's saloon. Patrolman McCullum went to the place, but the fellow who phoned had gone.

The affair is believed to have been a drunken row in which two men mixed in a hot fight.

HUDSON COUNTY, N. J., ENDORSES ROOSEVELT

NEW YORK, Sept. 2.—The executive committee of the Republican central committee of Hudson County, N. J., has adopted resolutions declaring that the committee "goes upon record that the progressive political movement must be led by Theodore Roosevelt and that the first step in that leadership is that he shall be nominated as the next Republican candidate for President of the United States.

The resolution endorses enthusiastically "the new nationalism" advocated by Colonel Roosevelt in his Outward Bound and pledges the unanimous support of the county organization to any movement looking to placing him in the White House again.

WOMAN CAPTURES BURGLAR.

BUFFALO, N. Y., Sept. 2.—Mrs. Os. Haffa was aroused from sleep early today by a noise in the parlor. She quietly crept down stairs, stole up to a man who was bending over a lantern and suddenly pinched his arms behind him. Assisted by one of his daughters, she held the struggling intruder until the arrival of a policeman, summoned by another daughter. The man was locked up on a charge of burglary.

Mr. Haffa was out of the city and the women were alone in the house.

LOCAL BREVITIES

Pete Villa was arrested last night by Detective Ben Drenth on a charge of disturbing the peace. The arrest was made on a warrant sworn out in the police court. Villa is alleged to have raised a disturbance in the western section of the city on Thursday night.

"THE SPENDTHRIFT," WITH GRIPPING CLIMAX, WILL AGAIN TONIGHT FORCE HOME ITS MORAL

Doris Mitchell and Lionel Adams in a scene in "The Spendthrift," as the Barton again tonight

What is your income? Are you spending more than you earn? Does the wife in your family manifest any interest in her husband's earning capacity? These and similar vital questions are suggested to every theatergoer who witnesses Porter Emerson Brown's stirring drama "The Spendthrift" which Frederic Thompson will present at the Barton again tonight.

The play is offered by J. G. Harper and Glenn Harper, who have given it an elegant setting and gathered together some of the best talent in the profession to interpret its characters.

The leading role is in the hands of the quaint comedian Joseph Detrick, who is said never to have appeared to better or more humorous advantage. The character fits his peculiar style of comedy work. The remainder of the company includes capable actors and actresses with the charming comedienne Miss Olive Mordoff.

"Is Marriage a Failure" is well equipped with scenery and costumes. Seats are selling for both performances at popular holiday prices, 1

PHILIPPINE UPRISING IS UNIMPORTANT

Filipino Commissioner at
Chicago Smiles at Idea
of Any Trouble.

CHICAGO, Sept. 2.—Governor Leonid Gorby Reyes of Cavite, special commissioner of the Philippine government, who is circling the globe on a harbor investigation tour for his government, arrived in Chicago yesterday from Niagara Falls. He declared that the uprising headed by Simeon Mandao in the province of Nueva Vizcaya, is unimportant and of small moment to the general welfare and peace of the islands.

He predicted that the insurrection in Nueva Vizcaya yesterday would be quelled and Mandao captured in less than a week.

"Nueva Vizcaya is not bigger than that," he said, making a circle of his two thumbs and forefingers, "and this Mandao, who is a fugitive from justice, has probably less than a hundred followers, all ignorant fellas of the lower class. Nueva Vizcaya is one of the poorest provinces and there is little valuable property which the rebels can destroy. As soon as the constabulary and the scouts get after them it will all be over as quick as that." Governor Reyes snapped his fingers and smiled at the thought.

OFFICIALS SAIL FROM ALASKA

Wickersham Says Cheap
Coal Is Necessary for
the Territory.

CORINTH, Alaska, Sept. 2.—Attorney General George W. Wickersham and Secretary of Commerce and Labor Nagel sailed for Seattle today on the government steamer Albatross on the last leg of a trip through Alaska that has occupied more than a month of their

time. The Albatross is due at Seattle on Monday. "We came to see a little place called Alaska, but discovered an empire," said Attorney General Wickersham today. "I realize more and more the importance of opening the coal lands and when we have a talk with the President he may have some recommendations that will result in streamlining out the present system. The one great need of Alaska is railroad transportation as upon it depends the adequate development of Alaska's mineral and agricultural lands. It is evident that this transportation cannot be furnished until the coal lands are opened up. For cheap coal is required to operate a railroad and in hopes that something will be done in this matter this winter."

TOKIO, Sept. 1.—The steamer Manchuria, bound from Shanghai for San Francisco, still remains in quarantine with her passengers because of the suspected case of the plague discovered on board yesterday. The vessel is undergoing rigid disinfection

INSURGENT CANDIDATE SWEEPS IDAHO PRIMARY

BOISE, Idaho, Sept. 2.—Returns of mail received in the first direct primary election held in Idaho indicate that Governor James H. Brady is re-nominated by the Republicans. Burton L. French, Insurgent candidate for Congress, has swept the state. Arthur M. Bowen has won the Democratic congressional nomination. James S. Hawley is nominated by the Democrats for governor by a heavy vote.

Fresno's Largest Juvenile Store

READY FOR THE BOYS AND YOUNG MEN

The School Bell Will Be Ringing Soon---Outfit Now

Larger and grander than ever Goodman's Big Juvenile Department opens for the Fall and Winter Season. Our stocks are complete—the very newest styles coming direct from New York and other Fashion Centers. This department has made rapid strides since its opening only a few years ago. Fresno needed a children's store then—now it has one of the largest and finest children's stores on the Pacific Coast. We can outfit the youngsters from 2 1-2 years of age to 20, from head to foot, with the exception of shoes.

All the varieties of styles have been gathered in this one store—we have made careful study in our buying so as to satisfy all exacting demands this year.

Fresno Schools open Monday September 12th. The children's store is ready to outfit the school children—

BOY'S KNICKERBOCKER SCHOOL SUITS

\$5.00 to \$12.00

All the neatly dressed school boys will wear knickerbockers this year—grays and browns the leading shades. We have all patterns for your selection, in tweed, cheviot and homespun materials. The sizes run from 6 years to 16.

Young Men's - - \$9.00

TO

College Cut Suits - \$20.00

These suits are the classy kind—Young men want distinctive clothes—We have them. No gingham this year—just high-class style throughout. Our prices are by far the lowest in the city.

Fall Clothing For Men

Advance Showing Now

FURNISHINGS FOR THE BOY ARE HERE

We are devoting an entire store to nothing but children's and young men's wearing apparel. That's why we can outfit the boy to suit any taste. Our stocks are extensive—varieties of style in abundance. This is the store for boys of all ages. Fifty different styles of hats to choose from—underwear, shirts, collars, neckties, suspenders, sweater coats, gloves, overalls, etc.

GUARANTEED STOCKINGS

The finest collection of men's well made clothing ever gathered under one roof in this city is now being shown at this store. The finest makes are here. The styles are very conservative for fall, but very distinctive. We would appreciate you looking at these new models.

BUTTONED TO NECK, MISSES' COATS

\$8.50 to \$12.00

Long coats with military motif in smart warm woolen weaves—grays and browns. Button close to the neck. The very latest and smartest of misses' coats. The right sort of coat for school wear—A fine line of girls' sweater coats are also being shown.

Buster Brown - \$5.00

TO

and Sailor Suits \$10.00

These suits are principally for the younger boys. The ages run from 2 1-2 to 9 years old. They're all stylish little suits, built by the finest style makers. Make the children happy. Bring them here.

COR. I AND MARIPOSA STREETS
The Home of Hart Schaffner & Marx Clothes

AMERICANS
COME HOME "BROKE"

Travel by Steerage Because
They Cannot Afford
Cabin Rates.

NEW YORK, Sept. 2.—Statistics compiled at Ellis Island bear evidence that many thousands of Americans who went abroad this summer for European vacations, found the expense of foreign travel too much for their pocket books and were compelled to return by steerage.

On an average, 1,000 American citizens have arrived weekly from European ports in the steerage of various trans-Atlantic liners this summer. The official figures for August show that 4,995 Americans arrived at New York as third class or steerage passengers during the last month. Vessels from British ports brought most of them, the Mauritania, on the voyage that ended at New York last week, alone bringing 125 Americans in her steerage.

The explanation advanced at Ellis Island for the large number of Americans who are coming home in the cheapest way, is that the passengers are "dead broke." A small percentage, however, is accounted for by the fact that many persons who have to get home must come steerage, owing to the crowded condition of the ships or else stay abroad until the rush is over, and cabin accommodations are available.

But most of the home comers who are coming back in the steerage are doing so, according to the Ellis Island Inspectors, because that is the only kind of ticket they are able to buy. They went over first or second class,

but used up their funds in travel and then when the time came to come back they had to take the cheapest passage.

The incoming steerage voyagers represent every section of the United States. Many of them are landed as soon as the boats dock, because they have papers by which they can prove their citizenship. Others who do not have the necessary means of identification are forced to the inconvenience of going to Ellis Island to prove their citizenship.

KOREAN SPY STABBED
BY HIS COMPATRIOT

Murderous Resentment of
Treachery in Giving News
to Japanese.

HONOLULU, Sept. 2.—Choy Yong Jo, a Korean, was stabbed in the abdomen and probably fatally wounded today by Lee Song In, a delegate to the convention of Korean patriots meeting here protesting against the annexation of their country to Japan. It is asserted that Choy Yong Jo had incurred the hatred of his fellow countrymen by furnishing to the local Japanese newspapers news of the proceedings of the Korean National Society, which is strongly resisting Japanese aggression. He had received a warning that if he continued to act as a spy, his life would be in danger, and two days ago appealed to the police for protection, the officers permitting him to sleep in the station.

His assailant gloried in the deed he committed for the sake of his country, and regrets only that the wound inflicted did not prove fatal immediately.

THOUSAND LOST IN
JAPANESE FLOODS

Details of Terrible Catastro-
phe in the Island
Empire.

VICTORIA, B. C., Sept. 2.—The loss of life in the Japanese floods exceeded one thousand, according to advice brought by the steamer Antiochus, which arrived from Yokohama today. The official list for fifteen prefectures shows the drowned or missing to total 1112, while more than 160,000 houses were flooded and wrecked, 3595 being swept away.

More than 50,000 acres of land was flooded and 200,000 persons are homeless and are receiving relief. Among the victims was the family of Mr. Kondo, president of the Nippon Yuzon Kai-sha, who were drowned when his villa was demolished.

The great floods were followed by heavy storms at sea, in which several Japanese steamers were wrecked. The steamer Hokuriku Maru was lost in Tsuruga Strait with all hands on Aug. 13. On the same day the Shinga Maru went ashore near Atsugi, her complement of 130 being saved by revenue steamers. The Kwanmon Maru which was driven into Toba for shelter, had some of her boats rushed by panic-stricken passengers who thought she was about to founder. Two boat crews left the vessels and their fate was uncertain when the Anthracite left. The vessel ultimately reached Yokohama in safety.

The big volunteer vessel Umegaki Maru had a severe struggle with the gale with 308 passengers on board, and reached Yokohama in distress. Several of her steamers suffered and several sailing vessels were wrecked, the Eriki Maru, laden with coal founded off Nukidama Miya prefecture, her captain and several others being drowned. Two schooners also founders, a majority of those on board swimming ashore.

DICKINSON PRAISES
PRESIDENT TAFT

War Secretary and His Par-
ty Leave Philippines for
Asiatic Coast.

CANADIAN AGENT
DIES IN FRANCE

VERSAILLES, France, Sept. 2.—M. Hector Fabre, Canadian commissioner general in France, died here today of uremia. He was born in Montreal Aug. 9, 1884.

M. Fabre was engaged in journalism for a number of years and in 1873 was an unsuccessful candidate for a seat in the House of Commons. He was called to the senate in 1875 and was appointed agent for the Dominion government at Paris in 1882, following which he resigned his seat in the senate.

M. Fabre died at his home in the Rue Commerce.

His wife was with him when the end came. He had been ill since January but insisted upon keeping up his duties bravely, going regularly to his office in Paris.

Fabre's death caused a shock in official circles here, where he had many friends. Throughout his service of more than thirty years he had formed a wide acquaintance with public men of France and was highly esteemed. He was an authority on questions affecting interrelations and took a prominent part in the negotiations of the Franco-Canadian treaty.

Dickinson discussed the charges made in Congress by Representative Martin of Colorado, that Frank W. Carpenter, executive secretary of the Philippine government, and E. L. Worcester, a member of the Philippine commission, had acted improperly in connection with the leases of "Frigate Islands" in the Philippines and said he was convinced that the charges were unjust and unfounded. The speaker endorsed the administration of Governor Forbes.

Later in the day the Dickinson party departed for Hongkong on the transport Crook, enroute for Siberia.

"NO FOUNDATION FOR
CHARGES"—CHOATE

STOCKBRIDGE, Mass., Sept. 2.—Joseph H. Choate, former ambassador to Great Britain, on being informed today that George W. Chamlee had asked leave to withdraw his petition for consideration by the American Bar Association of charges made against Choate by John R. Watts of New York and that the association probably would take no action on the charges made the following statement:

"The charges of Mr. John R. Watts against me are absolutely unfounded and are given the American Bar Association has disavowed all responsibility for them. I have never acted for Mr. Watts or had any knowledge of his affairs. So far as his charges against my former firm have heretofore come to my knowledge I have investigated them and found them to be without foundation."

of Deaths Among the
Children.

NEW YORK, Sept. 2.—The hook worm has been found in considerable numbers in the milk and butter supply of New York by Dr. D. J. C. Carroll, a Pennsylvania bacteriologist who is conducting a series of laboratory experiments here.

"It has been said," said Dr. Carroll, "that the hook worm does not exist above the Manon and Dixon line. As a matter of fact, it is the chief cause for children's ailments following the drinking of ordinary milk. It is as prevalent here as it is in the South and yearly causes thousands of deaths among children."

Dr. Carroll's report has been submitted to the health department for action.

WOMAN CRUSHED TO
DEATH IN ELEVATOR

PORTLAND, Ore., Sept. 2.—Miss Mabel Putman, a stenographer employed by the Pacific Monthly, was crushed to death today in an elevator accident in the building occupied by the publication. Miss Putman was in the act of leaving the car when it dropped two stories. She was terribly mangled. It is alleged that the mechanism did not work properly.

COAL BARGE AFIRE
VICTORIA, B. C., Sept. 2.—Fire broke out on the steel coal barge Parada at Esquimalt last night and after several ineffectual attempts were made to extinguish the blaze the barge was towed into the harbor and scuttled. The Parada has 2000 tons of coal aboard. Vessel and cargo are insured.

REFUGEE MURDERER
BETRAYED BY FEET

SPRINGFIELD, Ill., Sept. 2.—His extra large feet led to the arrest yesterday of J. A. Huddleston, wanted in Blandville, Tenn., on a charge of attempting to murder a constable. Huddleston came to Springfield to visit at the home of a friend. When detectives entered the residence, they expected a large pair of feet extending from a pile of cast-off clothes in the attic. The owner of the feet was dragged out and admitted he was the man wanted.

STATE CONSERVATION
IS URGED BY HAY

Says Too Much of Wash-
ton Is in Control of the
Government.

SPOKANE, Wash., Sept. 2.—"The people of the state of Washington were exercising practical conservation before Gifford Pinchot and Theodore Roosevelt appeared on the political horizon," declared Governor M. E. Hay today, in discussing his plan of state conservation, which he will advocate at the conservation congress in St. Paul next week.

"I am sorry to have to take issue with the former president on the matter of conservation, but I am for state conservation first and last. Twenty-seven and a quarter per cent of the area of the state of Washington, an area larger than the states of Rhode Island, Connecticut, Delaware, New Jersey and the District of Columbia combined, is taken up with federal resources, and the taxpayers of the state of Washington are taxed no smaller sum each year to police and fire-patrol this territory.

"Five hundred thousand acres of land given to us by the federal government for educational purposes is within this forest area to which the federal government refuses to allow us to secure title.

"I am as strong a conservationist as a man can be. I am absolutely and firmly of the opinion that the people of this state are more competent to administer the resources of Washington than any bureau in Washington."

HITCHCOCK ADVISED
ARIZONA CITIZENS

Says New Constitution Must
Be in Line With That
of the Nation.

YUMA, Ariz., Sept. 2.—After touring the Yuma Valley and viewing the Laguna dam, Postmaster General Frank H. Hitchcock and Delegate Ralph Cameron addressed an open air meeting here last night. Mr. Hitchcock offered the following advice in regard to the framing of the Arizona constitution:

"We might like to forego the approval of Congress in framing a constitution, but must submit to it, especially as five-sixths of the members of the Senate are lawyers. Many of them are constitutional lawyers and still insist on the national constitution being the model. Unless you can submit to the Senate a constitution preserving the principles and spirit of the United States constitution, you cannot secure approval. I am not arguing for or against any suggested provisions."

"Frame a constitution along simple and broad lines that will be sure to be approved. Afterward your state legislature can adopt any special or modern act desired."

NOBLE WINDOW DEMONSTRATOR
IS THROWN FROM HORSE

LOS ANGELES, Sept. 2.—A man who has been working here for some days as a window demonstrator in a clothing store and who claimed that he is Count August Rohemylsky, Da Mukadel de Castelane of Denmark, was thrown from a horse today and suffered a fractured skull. He is not expected to recover. According to the count, he was short of funds and for that reason took up the demonstrating work.

DESTROYER MAKES GOOD TIME.
BATH, Me., Sept. 2.—An average for four hours of 32.9 knots an hour was made today by the torpedo boat destroyer Faublinday on her official experience trial. This exceeds the showing of her sister ships, the Fluzz and Reid, year ago. All three are Bath built.

WASHINGON'S IMPROVED TEAM.

No Longer the Bult of the American
League.

Until this year the Washington club has been looked upon merely as a stepping stone for the other teams. Many are the jokes that were found on that team and the record it made year in and year out.

A vaudeville performer invented one which can like this:

"Washington—flat in war, first in peace, and flat in the American League."

But things have changed this year in Washington. The addition of Elbert Newell, whom Washington secured from New York, and the much-improved playing of Milan, has made the team to be feared around the circuit.—"Hughie" Jennings on the American League race in the September Metropolis Magazine.

A

INCREASE IN NATIONAL DEBT IS REPORTED

Great Excess of Expenditures by Uncle Sam Over Receipts.

WASHINGTON, Sept. 2.—With an increase of \$3,273,326 in the ordinary account for August, the public debt had a total deficit of \$15,371,456. The United States treasury closed the second month of the fiscal year, keeping an even keel, at all circumstances considered, with a working balance of \$30,528,537.98 on hand, and the general fund down to \$89,523,207.59.

The increase in public debt, which is a complete turnover of four millions in round numbers, from the month of July, is due largely to an excess of national disbursements over receipts. The general rate of excess in expenditures over receipts during July and August is also a con-

tinuation of the ordinary account for August, totalling \$3,273,326, running a shade ahead of the same month last year, ten millions under last month and making \$126,928,496.90 for the present year, some four millions better than the record for the same time a year ago.

The Panama Canal expenditures for this year are brought up to \$4,978,321.50.

For the month alone the government was up around \$4,000,000 behind on the ordinary receipts. Customs receipts jumped up a million and about \$83,000 came in from the corporation tax. Internal revenue netted a million less than last month. The government goes into the third month of the year with a grand total of \$1,146,576,834.63 cash in the treasury.

The national bank notes outstanding amount to \$717,321,051, an increase during the month of about \$5,000,000, and an increase of about \$19,000,000 over a year ago. The deposits of bonds and money to secure the increases are about even. Twelve new banks with a capital of \$3,105,000 were authorized to begin business during the month and there are now in existence 7,181 national banks with combined capital of more than \$1 billion dollars.

Reports of the week from national bank examiners in the Middle West, where some apprehension had been felt, indicate a satisfactory condition and treasury officials believe the bankers have the situation well in hand for the crop movement.

No extraordinary demands upon the Eastern financial market are likely. Loans are being made cheerfully, rates of interest have been raised to check the borrowing for luxuries and high living, and the financial centers of the Middle West and the far West appear well equipped to meet the demands of the preceding year.

Disbursements on the whole and in the face of a natural condition which bears upon a good showing, still give evidence of the retrenchment that has become one of the first considerations of the administration. With a drain of about \$2,500,000 a month for the next few weeks.

SAN JOAQUIN VALLEY "FREIGHT" HEARINGS

Struggle of San Francisco and Los Angeles Nearly Ended.

EXPULSION OF JEWS FROM KIEV CONTINUES

KIEV, Russia, Sept. 2.—The expulsion of Jews who must return to the restricted district set apart for them by law, continues on a small scale. A daily average of fifteen persons receive a preliminary notice to depart within a stated period. About twelve persons are expelled every day.

From July 30th to August 26th, inclusive, 794 persons were sent away from Kiev or ordered to leave the city. During the same period, 33 Jews were expelled from Solomonsk and Dneproffka suburbs.

KHAN OF KHIVA IN TURKESTAN DEAD

ST. PETERSBURG, Sept. 2.—The Russian governor general of Turkestan telegraphs that the Khan of Khiva, Said Mohammed Rakim Bahadur, died on August 29th of paralysis of the heart.

Khiva is a Russian vassal state of Central Asia. In Russian Turkestan, having an area of about 23,000 square miles and a population estimated from 700,000 to 800,000.

The Khan, whose death is reported, was born in 1843 and succeeded his father as reigning sovereign in 1885. The heir apparent accepted by Russia is Asfandiar, the third son of the Khan. His mother was a Persian slave.

He submitted, however, that conditions were now different, but argued that the commission, in any event, could do no more than order an abatement of the alleged discrimination against Los Angeles, and not attempt to say whether the rates to San Francisco should be raised or the rates to Los Angeles lowered.

Attorney Mann, for San Francisco, argued against lowering the rates to Los Angeles, laying stress on the increased costs to the railroads of hauling over the Tehachapi mountains. Attorney Neumiller, for Stockton, claimed that as Stockton was ninety miles nearer the San Joaquin Valley than San Francisco, that it was entitled to lower rates than San Francisco, and asked the commission to order a reduction in rates for that city.

Replying for Los Angeles, Attorney Laue stated that the only evidence before the commission as to the cost of haul over the Tehachapi mountains showed that the additional expense was about 5 cents per hundred pounds, while Los Angeles was charged 24 and 26 cents more in freight charges than San Francisco for a similar distance in the San Joaquin Valley.

This action followed the reading of resolutions adopted by the Chattanooga Bar Association expressing regret at the alleged attack on Choate by a member of the local association.

General William A. Ketcham of Indiana, opposed the proposition to withdraw the petition. He moved that Chamlee be not permitted to withdraw his alleged charges.

Lehman, of St. Louis, moved an amendment to General Ketcham's motion that the charges be referred.

This amendment was accepted by Ketcham and adopted by the convention. It is improbable that the matter will be brought up again.

The resolutions adopted by the Chattanooga Bar Association censuring Chamlee were as follows:

"The bar of Chattanooga is greatly humiliated by the publication in the Chattanooga newspapers relating to certain charges preferred against the Hon. Joseph H. Choate by James R. Wauke through a member of the Chattanooga bar.

"Although G. W. Chamlee, preferring the charges, disclaims the statements reflecting on the American Bar Association implied to him, we regret deeply that while the members of the association are our guests a member of this bar should have consented to stand sponsor for charges against an eminent member of the profession in a distant city, and we condemn unreservedly the publication of these charges in violation of the rules of the association.

"This association has always entertained the highest respect for Mr. Choate, and will be slow to believe that there is any truth in charges so deadly, and which if true, should have been preferred in the courts of New York.

The convention came to a close to-night.

ARIZONA AND NEW MEXICO LANDS FOR SETTLEMENT

WASHINGTON, Sept. 2.—Approximately 679,555 acres of land in Arizona and New Mexico, eliminated from the national forests by President Taft as being chiefly valuable for agricultural purposes, have been opened to settlement under the homestead laws. The lands will become subject to settlement November 22nd, but not to entry until December 21st. The list follows:

From the Coconino national forest, Arizona, about 233,841 acres lying along the eastern and northern borders of the forest in Coconino county; about 358,914 acres eliminated from the Coronado national forest, Arizona, lying in Pima, Pima and Cochise counties, and about 51,057 acres in Grant county, New Mexico, and about 8240 acres in Coconino county, Arizona, eliminated from the Chiricahua national forest.

TO DOUBLE TRACK RIO GRANDE

DENVER, Colo., Sept. 2.—The Times says today that the Denver and Rio Grande is to double its line from Denver to Salt Lake City and that the company will spend between \$10,000,000 and \$12,000,000 for improvements.

President Jeffery in his annual statement announces that the directors have authorized the issue and sale of \$10,000,000 of first and refunding mortgage bonds.

General Manager Horace W. Clark said today:

"I understand we are to double track the line from Denver to Salt Lake City. We now have 100 miles of double track. There will be approximately 640 additional miles of that kind of work to be done. The work will probably cost \$10,000 a mile."

GIRL FATALLY HURT BY AUTO.

OAKLAND, Calif., Sept. 2.—Emily Pessano, a 12-year-old girl, was struck by an automobile this morning at the corner of Eighth and Linden streets and fatally injured. The girl was on her way to school and was crossing the street when the automobile struck her, crushing her in the ribs on the left side and injuring her internally.

The chauffeur, Willis Thomas, was arrested and will probably have to answer to a manslaughter charge.

AGED MAN TRIES SUICIDE.

SAN DIEGO, Calif., Sept. 2.—Old sick and tired of life, an aged man, giving the name of Wm. Russell, strapped his feet together and lay down to die last evening. He was reported to be a longshoreman and when brought ashore pleaded with his rescuer to let him die. "My sister and niece deserted me in San Francisco a few days ago," he told the police. "There is no one in the world who cares for me. Why should I live longer?" He was sent to the county hospital for treatment.

JEWELRY NOT SMUGGLED.

NEW YORK, Sept. 2.—Mrs. L. Reynolds Adriance, wife of a wealthy manufacturer of Poughkeepsie, appeared at the custom house today and gave proof that \$100,000 in jewelry which she brought with her from Europe recently, in addition to a \$6,000 necklace, which she was charged with attempting to smuggle into this country, was purchased in America. She was allowed to take all of the disputed jewelry away with her.

MORE CHOLERA IN BERLIN.

HOW SHALL WRECK OF MAINE BE RAISED?

Army Engineers Dispute
About Work in Havana Harbor.

WASHINGTON, Sept. 2.—Arrangements were made at the War Department today for Captain Harry B. Ferguson, member of the board, and his successor, to remove the wreck of the battleship Maine from Havana harbor, to superintend the investigation into the present condition of the wreck.

Since the last meeting of the board it has developed at least some of its members do not look with favor on the O'Rourke plan for raising the battleship, which were forwarded to President Taft this week. One member of the board has expressed himself as believing the plan would not give the board the proper opportunity to determine whether the Maine was blown up by an explosion from without or within.

The O'Rourke plan provides for the raising of the Maine by placing cables underneath the wreck and lifting her bodily out of the water. The army engineers are said to favor the construction of caissons around the wreck and the raising of it by that means.

CHILD IS BORN TO MURDERER HYDE

KANSAS CITY, Sept. 2.—Mrs. Clark Hyde, whose husband is under life sentence in prison for the murder by poisoning of Thomas B. Sweeny, gave birth to a child today. Dr. Hyde was not at the bedside when the child, a son, was born, but arrived at the Hyde home at 3516 Forest avenue, two hours later, escorted by deputy marshals.

After two hours at the home, Dr. Hyde was taken back to the jail.

MOUNT PLEASANT, Mich., Sept. 2.—A warrant has been issued for the arrest of K. C. Varnell, cashier of the Farmers' and Merchants' Bank, who disappeared last Saturday. The charge is embezzlement, but no amount is named, and it is said that it will take some time to determine the condition of the bank.

REPUBLICAN CLUB NAMES TIME AND PLACE FOR ITS MEETINGS

Gatherings to Be Held
Every Tuesday Evening
at Star Theater.

Big Campaign Is Now Being
Carried on to Secure
More Members.

Arrangements have been made with the owners of the Star theater building whereby the Young Men's Republican Club of this city may meet there weekly from now until the day of election. Meetings will be held every Tuesday night, commencing next Tuesday night.

In order to make the meetings something more than gatherings where cut and dried campaign speeches are to be heard, it is planned to have novel and entertaining features on each meeting night. The program for each meeting will be announced several days before in order that all may know what to expect on each occasion.

The entertainment committee is now busily engaged in preparing a fine program for the opening meeting of the organization.

The Young Men's Republican Club, as its name signifies, is for young Republican voters in the county and in its work it will be for Republican doctrines and nominees. The membership rolls are open to any who wish to join.

CARPENTER ROTH IS LAID TO REST

With many friends in attendance, the funeral of the late Fred Roth was held yesterday afternoon from the chapel of A. B. Hopkins & Son, Rev. Samuel Hoenicka, pastor of the German Lutheran church, officiated. Special music was rendered and the casket was buried in a wealth of beautiful floral offerings. Interment took place at Mountain View cemetery.

The pall bearers were: Messrs. Mifflin, Ian Prince, Wittmark, Goehring, Kunst and Kohman. Roth died of blood poisoning due to an injury to his leg when a heavy door fell on him while at work. Roth was a carpenter.

WILL SETTLE DEBT; GETS HIS RELEASE

Bet detective Ben Drenth yesterday arrested John Barker, a packing house employee, on the charge of defrauding an Inn keeper. Proprietor of the Modern Lodging house swore to a complaint before Police Judge Briggs. The bill was \$8.60. Barker was taken before Judge Briggs, where the case was dismissed after Barnett had promised to pay the bill.

DR. THOMAS BOYD HOME FROM TRIP THROUGH EUROPE

California Raisins in Need
of Cleaning. Retailers
Tell Preacher.

Roosevelt's Popularity Is Undiminished in Europe; Church Weakening.

Dr. Thomas Boyd, pastor of the First Presbyterian church of Fresno, returned yesterday afternoon from an extended European tour, in which he visited many points in Great Britain and on the continent. Dr. Boyd left Fresno May 24th on his trip, which was tendered to him by his congregation as a mark of esteem. His trip was made more pleasant through his having a traveling companion Rev. Dr. Warren H. Landon of the faculty of the Presbyterian Theological seminary in San Francisco.

Among the countries visited by Dr. Boyd was England, Scotland, Ireland, Holland, Belgium, Germany, Austria, Italy, Switzerland and France.

"I have had a royal good time," remarked Dr. Boyd last evening. "The trip was magnificent from start to finish."

"Of course it would be wholly impossible to give any connected account in a casual interview. We would have to have an hour or so together to have things prepared in right shape. However, there may be one or two points which would be of special interest to the public."

"While I was not on a commercial trip, I thought it might be a good thing to get a first hand knowledge of the raisin situation in England and Scotland, and so interviewed a number of retailers in those countries. I asked them for a candid expression of opinion as to why California raisins do not find a larger sale."

"They stated that the seeded raisins often have sand in the cartons and remarked that if care were taken in the packing so that they could guarantee them free from sand to their customers the product would be more popular. In the second place they say that in clusters the California product is not put up in such a cleanly manner nor with such care as the Spanish layers. Perhaps through the cheapness of labor in Spain the Valencia with which the California raisins compete are packed with scrupulous care, every berry flat and with that bronze appearance the public there attributes to the bloom of the grape. Each layer is perfectly flat, carefully distributed by the packer, so that the cluster has a pressed appearance, and when the top layer is removed, the second and lower layers are of the same excellent quality and appearance. The third and last disadvantage our fruits have is the closeness and cheapness of the Spanish source of supply, a condition of course for which we are not responsible."

ROOSEVELT POPULAR. "One thing was particularly striking, and that was the great popularity of Roosevelt. I got to London shortly after he had been there, and on passing through Europe touched many places he had visited. Everywhere one heard of Roosevelt, and everywhere he was liked by the people. In England the general public thinks much of him and regards him as the finest type of American. He is popular in London with the masses. They seem to like his Gullhall speech. If any one else had made it, it would have been different, but they seem to admire Roosevelt's nerve in going to London, head of the empire, and fearlessly giving suggestions on ruling Egypt. Not in bandage, but in regard, I believe they hold Roosevelt high."

"We visited many interesting cities. Berlin unquestionably is the greatest city of Europe, and I believe that the Germans are the greatest nation in continental Europe. Berlin, in its orderly regularities of streets and discipline is a revelation. There after walking a distance of about the space between the Southern Pacific depot to the court house park from the heart of the city, the visitor finds himself in a great park of about a thousand acres. Magnificently kept, its walks stretch away, flanked on either side by statues, some in groups, some in single figures. These are fine sculptures, and portray scenes and persons from German history from the earliest periods to the present day. There also are other great parks there."

"The emperor seems to be popular, but the Socialists are making great headway, largely through a feeling that the administration of government is excessively expensive. The army and navy there are enormously expensive. The Germans are a fine sturdy people, and seem happy, although the Socialists are making many recruits through a popular revolt from the forced military service of the youths of the country."

"Glasgow, one of the first cities I visited, I would call the best governed city in Europe. After London, of course, it is the largest in Great Britain. The slum district is small, the people seem well to do. The 'commission system' is used in the city, and the municipality has advanced further than other cities in the ownership of street railways and other public utilities."

"I spent a week in London, and was fortunate enough to see the king, who is held in high regard by the English. It would be hard to go into details off hand about London. I believe I saw everything there to be seen under the guidance of a printer about forty years old, who had spent his whole life there. He took me to every point of interest."

"In Scotland I visited the birthplace of Bobby Burns, on the Ayr, as well as Edinburgh and other cities. Burns' birthplace is one of the best preserved homes of noted people in the empire. I saw the old Kirk where he saw the witches, and in the house saw the wall bed where he was put to sleep by his mother in his infancy. From there I went through the Trossachs, running around and touching at Eilean's Isle in the lake described by Sir Walter Scott. Stirling castle and other points mentioned by that writer were intensely interesting. Edinburgh, where highly developed commerce has not driven out historical places, including the great castle on its acropolis, was uniquely interesting."

"One intensely interesting feature on the continent was the great Simplon tunnel in the Alps. Thirteen miles long, to accommodate the grade, it makes a circle like that at Tehachapi inside the mountain."

"One feature I am going to speak about Sunday was the great ecumenical conference in Scotland. I will hardly be able to give any details now."

CHURCH WEAKENING.

"Church matters? Well, if you want my candid opinion, I was grieved to learn that what we call the evangelical churches seem to be losing ground, that is they are not so strong as they used to be, throughout Europe. This is true

of Great Britain also, also not so true there or England as of Scotland. I think it due to the spread of the so-called 'Higher Criticism,' which is changing the attitude of the people towards the Bible. The church is changing its position there in some respects."

"Rome and Roosevelt? Well, the situation was rather involved. The last census gave Italy thirty million inhabitants, of which about ten millions are out of sympathy with the Catholics. Hence Roosevelt is regarded in different ways there. The Methodist school at Rome is patronized by the nobility and government classes, who send their children there, particularly to a branch for girls. For example, Marconi sent his daughter there, and he is a great man in Italy. All of these things helped in the misunderstanding. It would be hard to go into all the ramifications of the case and the effect of Roosevelt's message, although I believe the mass of people realized that he was simply taking a non-partisan attitude."

"The mayor of Rome, you know, is of the Jewish race, and that again is a circumstance which fosters friction between the Catholics and the Protestants."

"However, my views are necessarily hasty. I just got a glimse of things as I went through, when it would be necessary to spend a year or so to get in thorough touch with the situation in any one place. Some tourist, for example, might ask a few questions of some citizen here about how some man is regarded, and get a description quite different from the opinion held by the next man. I did not stop very long at any one place."

"By an interesting coincidence, Dr. Boyd returned from the west and Mrs. Boyd from the east after a vacation at Santa Cruz, within half an hour of each other. Mrs. Boyd reached the parsonage at noon and Dr. Boyd at 12:30 o'clock."

TO BUILD BUSINESS BLOCK IN COALINGA

It Will Give Store Space for the Recently Burned Out Merchants.

COALINGA. Sept. 2.—Ground is being broken on the corner lot at Fifth and D streets under the supervision of Contractor Stuart L. Vance for the erection of a modern one-story business block. The property was recently purchased by Dr. H. N. Berthiaume of San Francisco, who has taken up his residence in this city. The lot on which the building is to be erected is adjoining the post office and in the heart of the business center of the city.

The portion of the lot fronting on Fifth street will be excavated 25 feet back for a basement the width of the building. The structure is to be of a modern type and of brick, the front constructed of pressed brick. The foundation will be concrete and the building built so that another story can be added when desired.

There will be two store rooms on the Fifth street side and two in rear with entrance on D street. The building will supply store space for the merchants of Coalinga who were recently burned out and are looking for locations.

Walter McSwain, the Democratic candidate for sheriff, is in town to receive congratulations on his success in the primaries.

Mrs. Harry Lukins, wife of the manager of the Fairbanks-Morse Company, returned today from Los Angeles, where she spent the summer.

LITTLE BUGS SET TO WORK ON OTHER BUGS

Parasites of the Mealy Bug Placed in Vineyards East of Town.

Numerous orchards and vineyards were last month inspected for the discovery of disease and insect pests, and whenever found prompt measures were taken for the eradication of the trouble, reports Horticultural Commissioner F. C. Schell.

In this work valuable assistance was rendered by E. R. Carnes and George Comper of the state commission office in checking the spread of the mealy bug in some of the vineyards to the east of Fresno. A large colony of beneficial parasites recently imported from the Philipine Islands was placed in the infected places and the good work of these insects is already apparent. It is believed that in a short time the infected places will be thoroughly cleaned up by these busy little workers.

The little parasite known as vedalia cardinalis did good work during the month in disposing of the cottony cushion scale, small colonies of these insects having been distributed wherever needed.

It was found necessary also to spray some citrus trees within the city limits for mealy bugs and for this purpose a spray made up of nicotine and whale oil soap was used with good effect.

ALERT CIRCLE IS PLANNING FOR FALL

New Officers Are Elected and Work
for the Year Is Mapped
Out.

Alert Circle of the First Christian church had its first meeting yesterday after the summer vacation, with Mrs. J. C. Schramm, 137 Valeria street. The circle elected new officers for the year and outlined work for the fall. Mrs. L. M. Fredericks was elected president. Mrs. G. M. Hale, vice president, Mrs. Jones, secretary, Mrs. D. L. Zimmerman, re-elected treasurer. Thinking the work too much for the secretary, the circle created a new office, that of corresponding secretary, and elected Mrs. R. A. Fleming to the new position.

Mrs. Bolen's twentieth wedding anniversary falling on the date of meeting, she gave a very interesting talk on "Twenty Years' Married Life." Miss Lura Schramm, the hostess' talented little daughter, then favored the circle with two charming recitations. This concluding all business, after the hostess served dainty refreshments, the circle adjourned to meet next with Mrs. L. M. Fredericks.

Those present were Madam L. M. Fredericks, H. L. Nudd, O. M. Boles, W. D. Bowen, E. M. Harris, Jones, W. H. Jenkins, A. M. Loper, R. A. Fleming, Mrs. J. C. Schramm, H. F. Wakefield, Miss Lura Schramm.

South Bros' Drug Store.**

LITTLE BECOMES REAL

MARTYR TO HIS CAUSE

Refuses to Rake Up Leaves
and Is Thrown Into
Tanks; Enjoys It.

F. H. Little, a prominent member of the local branch of the I. W. W., who received a sentence of twenty-five days for disturbing the peace, has gained his uppermost desire. He is now a full-fledged "martyr." Wednesday, Little was convicted of disturbing the peace by a jury in the police court. Thursday, Judge Briggs imposed a fine of \$25. The I. W. W. refused to pay the fine and as a result went to jail.

Yesterday, Little was given the freedom of a trusty in the court house park. When Park Officer Woods handed a rake to Little he hurled it to the ground and refused to rake up leaves. The I. W. W. man said leaves could rot before he would take them up. Then Little was put in the tanks and will be kept in close confinement. He did not object in the least to the treatment, saying "your jails and dungeons hold no terrors for me." Evidently the dark cell does not bother Little as he began to sing and kept it up all day.

MALAGA MATTERS

MALAGA, Sept. 2.—Misses Roberta Porter and Margery McCann of Selma, who have been visiting relatives here for several days, returned home on Tuesday.

Chester Bibb, the 3-year-old son of Mr. and Mrs. R. S. Bibb of Chestnut avenue, has been dangerously ill for several days with appendicitis. He is slightly better today, but his recovery is doubtful.

Mrs. W. T. Rickards, who has been spending the summer at Santa Cruz and San Jose, returned home on Wednesday.

Mrs. Elizabeth Winans, who has been spending the past six weeks with relatives in Selma, is visiting relatives and friends here.

J. M. Cartwright made a business trip to Selma Tuesday.

Frank Stickles, who had been visiting relatives and friends here for several weeks, returned to his home at Long Beach yesterday.

A. A. Sadler went to San Francisco yesterday to look after business interests.

The usual services will be held at the Baptist church on next Sunday, the evening services being of especial interest. At this time the pastor will speak on the subject "Friends of the Home." This will be followed by a sermon on "Enemies of the Home" on one week from Sunday. Special music has been arranged for both services.

Eddie Fry, who is ill with scarlet fever, is slightly better today.

PAINTER IS DEAD FROM CONSUMPTION

After a lingering illness from tuberculosis, Van Burn Crocker, a painter, aged 29 years, passed away at the county hospital yesterday morning. He was a native of Nashville, Tennessee, and is survived by wife and child. Crocker was a prominent member of the local painters' union. The funeral will take place from the chapel of Stephens & Bean tomorrow afternoon at 2 o'clock. Interment will be in Mountain View cemetery. The services will be under the auspices of the Painters' Union.

Drug Store Service

ROYAL CABELL IS AN HONORED GUEST OF FRESNO

Revenue Commissioner Says
He Is Impressed By
Wine Industry.

FRESNO A BIG CENTER

Mayor Rowell Takes Visitor
to Kearney; Party Sees
Wineries.

Fresno county is the center of the sweet wine industry in the United States.

"There never has been any friction between the revenue service and those engaged in the sweet wine industry. The gentlemen engaged in the sweet wine industry represent the highest class of winemakers in the United States."

"I have been treated royally here. It is only necessary to come into direct contact with those actively engaged in the wine industry to wipe away any taint the revenue service and the wine makers. I trust that my visit here will result in a better understanding, coupled with practical benefits to the wine makers, between the revenue service and those engaged in the sweet wine industry."

These are some of the sentiments ex-

pressed by Internal Revenue Commissioner Royal E. Cabell of Washington, D. C., last evening to a newspaper reporter.

Mr. Cabell, Mr. and Mrs. Muenter of San Francisco and Collector Claude Parker of the Los Angeles district were guests of the Chamber of Commerce yesterday. Welcomed by Mayor Rowell and officials of the Chamber of Commerce, they spent the day in and about Fresno, looking into the sweet wine industry, finishing the evening with a banquet at the Regatta Club (see) as the guests of George P. Beveridge, manager of the California Wine Association. The banquet was attended by the prominent wine men of the community, including both members of the California Wine Association and the California Independent Wineries.

While the visitors stated that they were pleased with the reception accorded to them, the local representatives of the industry were enthusiastic in their appreciation of the attitude of the officials of the revenue service.

"We can only say," remarked one last evening, "that Commissioner Cabell and Collector Muenter and Parker are princely good fellows. As their visit is simply one of a social nature that is the highest tribute we can give. We have enjoyed every minute of their stay so far, and hope that they have found the call pleasant."

Commissioner Cabell, Collector Muenter of San Francisco, accompanied by Mrs. Muenter, and Collector Claude Parker of the Los Angeles district, arrived in Fresno yesterday morning shortly after 10 o'clock. They were met at the Southern Pacific station by a delegation composed of Mayor Rowell, President A. L. Hobbs of the Chamber of Commerce, and other prominent citizens. In the party were Judge George E. Church of the Superior Court, P. T. Morgan of San Francisco, president of the California Wine Association, Secretary William Thompson of the Fresno Chamber of Commerce, T. C. Ross, president of the Italian Swiss Colony, a large independent concern operating fifteen wineries throughout the state; George P. Beveridge, manager of the California Wine Association, William Rennie, An-

drew Maitland, L. R. Rogers, W. T. Maitland, J. C. Ferguson, and others.

Shortly after their arrival the visitors were taken for an automobile trip to Kearney Park. Mayor Rowell in his touring car took Commissioner Cabell and Collector Parker of the Los Angeles district, L. R. Rogers, president of the Las Palmas winery, took Collector Muenter of the San Joaquin district, Mrs. Muenter, and others. To all about half a dozen automobiles were in the party. The party visited Kearney, were shown Kearney Lodge, and other points of interest in the vicinity. The party returned in time for a luncheon at the newly built Las Palmas winery, just erected by M. F. Turpary.

L. R. Rogers showed the visitors all through the Las Palmas winery, which was running full blast, and they had an opportunity to witness the whole process of wine making.

Among the visitors, besides those mentioned, on the afternoon journey were Percy T. Morgan, president of the California Wine Association; D. M. Thomas, revenue agent for the Pacific coast; Sam Rockwood, deputy collector of Fresno; P. C. Rose of the Italian Swiss Winery; Frank West, president of George West & Sons; L. R. Rogers, president of the Las Palmas winery; A. M. Michel, Capt. William Bent, manager of the Marion vineyard; Capt. L. T. Stephenson, secretary of the California Independent Wineries; George P. Beveridge, manager of the California Wine Association and others.

The party visited first the Barton vineyard, going from there to the Scandinavian winery in the Scandinavian colony, thence to the Fresno National winery, thence to the new Las Palmas winery, thence to the Grana winery, then to the old Eilen winery, where the only bearing grove of date palms was an interesting sight, thence to the Margherita vineyard and thence to the Fresno winery, a California Wine Association institution.

At the Las Palmas winery the visitors had an opportunity to see some twenty to thirty cars of wine grapes unloaded into the crushers. Later the whole sweet wine process was shown them.

Commissioner Cabell stated that while he had heard there are 13,000 acres of grapes in Fresno, he had never realized what the figures meant.

"Really the wine industry here is immense," stated Mr. Cabell last night. "I never before realized how much it means. There are some fifty millions of dollars invested here, aren't there. Mr. Muenter?" he inquired of the San Francisco collector last evening.

Collector Muenter stated that he believed some figures of that size represented the investment. In this he was seconded by Mr. Parker.

"The trip here has been a revelation, and I have enjoyed it greatly," added the commissioner.

BANQUET READY.

Plans for the Chamber of Commerce banquet at the Hughes this evening have been completed. An interesting symposium on the industry has been prepared for the after-dinner speakers, who will include many prominent in this part of the state as well as the visitors.

This afternoon the Chamber of Commerce planned to take the visitors to all the wineries to the south of Fresno, including, at Glendora, Mattel's winery, the Wahiroko winery near Reedley, etc.

Royal E. Cabell comes of a prominent Virginian family, and is a direct descendant of the famous Confederate general of that name. His father also was an officer in the Old Dominion state.

THE SPENDTHRIFT TELLS SOME HOMELY TRUTHS DELIGHTFULLY

Clever Acting Makes Most of Strong Story of Every-day Problem.

Involves New Treatment of the Play That Has a "Problem."

Very few people at the Las Palmas last night had not seen "The Spendthrift" before. Notwithstanding that it was the opening night and this a new show, the spendthrift was familiar. And just because it was so thoroughly familiar, so well known to the rank and file of the audience, the play was a decided hit; indeed, with enthusiasm and discussed all over Fresno from the time the curtain fell until now. There is not a town in the world, perhaps that does not possess the familiarity, a knowledge of the heroine of Porter. Eugene Browne's "The Spendthrift" very capable and quite delightfully presented last night by Miss Doris Mitchell and a company without a weak spot worth mentioning.

It was something new in the line of thoughtful plays, resembling in a very general way "Paid in Full" and other successes of like nature, but removed from them in both conception and treatment. When one knows a play has a "problem" in it, he usually goes to the closing scene somewhat as a man approaches a bottle of ordinary bitter medicine. He knows it isn't going to be exactly pleasant, but it is good for him. However, anyone who looked

disappointed about the unpleasantness. "They all lived happily ever afterward" is the stereotyped thing in a certain class of stories. In last night's acting it was somewhat new.

CROWD RESPONSIVE.

The crowd that turned out for the opening of the winter theatrical season were rather good and quite warm in their feelings, rising faithfully to every line and situation that seemed to deserve a "hand."

The humor of the play was all quiet, though at times very much vivified. Quite as many laughs were worked into the "business" as were read into the lines. The humor of the lines was for the most part just a trifle broad, perhaps.

The tendency to be very strong minded and plain, to the extent of extreme frankness, was prominent. In fact, the discussion of the marriage problem was quite as straight, frank and unadorned with metaphor as one could well have expected in like circumstances.

Collector Muenter stated that he believed some figures of that size represented the investment. In this he was seconded by Mr. Parker.

"The trip here has been a revelation, and I have enjoyed it greatly," added the commissioner.

SEATTLE, Wash., Sept. 2.—Dr. S. Motoda, head master of the St. Paul College at Tokio, arrived from the Orient last night enroute to Cincinnati to attend the general conference of the Episcopal church, which meets there soon. Dr. Motoda tells a thrilling story of the difficulties he encountered in the Japanese floods while hurrying to catch the steamship Minnesota in order to arrive in time to attend the Cincinnati conference.

A few days before the sailing date he went to Karuizawa, a Japanese mountain resort. While there the clouds burst and subsequent floods put every railway and telegraph line out of commission. Dr. Motoda was forty miles from Yokohama. With four companions, he set out and struggled for two days through the torrent in order to reach Yokohama in time to catch the steamer. In the forty-mile journey he was forced to group his way through twenty-six railroad tunnels, half filled with water, and several times nearly lost his life.

Bishop John McKim of Tokio, who has been head of the Episcopal Missions in Japan for thirty years, was also a passenger on the Minnesota bound for the Cincinnati conference.

LEPROUS NEGRO SEVEN YEARS IN NEW YORK

Head Master of Episcopal College Arrives From the Orient.

SEATTLE, Wash., Sept. 2.—Dr. S. Motoda, head master of the St. Paul College at Tokio, arrived from the Orient last night enroute to Cincinnati to attend the general conference of the Episcopal church, which meets there soon. Dr. Motoda tells a thrilling story of the difficulties he encountered in the Japanese floods while hurrying to catch the steamship Minnesota in order to arrive in time to attend the Cincinnati conference.

A few days before the sailing date he went to Karuizawa, a Japanese mountain resort. While there the clouds burst and subsequent floods put every railway and telegraph line out of commission. Dr. Motoda was forty miles from Yokohama. With four companions, he set out and struggled for two days through the torrent in order to reach Yokohama in time to catch the steamer. In the forty-mile journey he was forced to group his way through twenty-six railroad tunnels, half filled with water, and several times nearly lost his life.

Bishop John McKim of Tokio, who has been head of the Episcopal Missions in Japan for thirty years, was also a passenger on the Minnesota bound for the Cincinnati conference.

LEPROUS NEGRO SEVEN YEARS IN NEW YORK

Head Master of Episcopal College Arrives From the Orient.

NEW YORK, Sept. 2.—A negro woman with an advanced case of leprosy has been living in New York for more than seven years, associating constantly with people of her own race. The nature of her ailment did not become known until late last night, when she applied at Bellevue hospital for treatment.

The doctors at once diagnosed her ailment as one of the worst cases of leprosy which had ever come to their attention. They declared that she could live but a short time.

The woman told the doctors that she had come to New York from the West Indies more than seven years ago, and was sick then.

Five years ago she married, and a year later her only child, a son, was born. She had been married only a short time, she said, when her husband deserted her and she has never seen him since.

According to her story, she has spent the last few months wandering about the city with her child, sleeping in the parks at night. Their only food was what she could beg or find.

The doctors were not prepared to state positively whether the boy is a leper. The two will be sent to join the small leper colony on Blackwell's Island.

For Sale or Exchange

500 acres, 3 miles northeast of Red Bluff, on the Sacramento River; 400 acres covered with first-class water right; 100 acres peach trees, 100 acres old; 40 acres prunes, same age; 10 acres alfalfa, first class; 100 acres barley; 50 acres plowed and ready for planting; 40 acres cut but not cleared; balance in timber that will bring enough to pay for clearing and have a big profit; a good 8-room house, barn, sheds, traps and boxes; 5 miles, 3 horses, chickens, implements, etc.

Price \$10,000.00, cash, or 10% down, 10% monthly, balance to purchaser. This year's fruit crop reported.

For further information, see or write,

ROYAL CABELL IS AN HONORED GUEST OF FRESNO

1924 MARIPOSA STREET, FRESNO, CAL.

that aren't made to sit upon, and everything else is true. One could hardly imagine home life in such places surrounded by such a class of life, such as the average American knows. That's another effect sought, and it's secured.

The climax at the end of the third act—very good dramatic form—is quite tremendous in tensity of interest. The wife is exposed after she has borrowed money from a wealthy friend who once made love to her; the husband believes her false; the creditor has been tricked into betraying his whole relation with the wife. Then, right at the end comes the gun play. The husband takes a pistol from a drawer—he has previously locked it over with a suicidal intent and then left it there. This pistol he levels at the head of his wife, and everyone expects nothing short of a murder. There is a shot. Half the people in the house jump some inches out of their seats. Then, when they get over the start, they see that the gun has been fired at the floor, and the melodramatic touch is over. It's melodramatic, for that one minute. But not inappropriately so, one feels. Even a murder would not have gone beyond the bounds of common human experience. It's nicely handled, and perhaps if it wasn't handled at all, one would leave the theater wondering why the author had written it at all.

And it's really a good show all through. Not the kind of a good show one sees every week or every month, but one of the kind that appear at rare intervals; with thought giving it true backbone, and a live, palpitating human story to drive the thought home. Besides, it is exceptionally well acted.

CLOAK MAKERS' STRIKE ENDED

Seventy Thousand Garment Makers Will Return to Work.

NEW YORK, Sept. 2.—The cloak makers' strike, one of the greatest industrial disturbances in the history of American labor, was settled, tonight. Seventy thousand garment makers who have been idle for nine months and return to work. Ten thousand men and women, depending upon them, 50,000 girls in all, were on the point of eviction, and hundreds had already been forced to the streets. The industrial loss to employers and employees has run into the millions. In loss of wages alone, the total has been estimated at more than \$10,000,000, while the loss to manufacturers, jobbers and retailers the country over have been computed at ten times that amount.

In spite of the stupendous readjustment involved, the strike has been in the main notable for peaceableness. There were numerous cases of petty disorder and a petition of the manufacturers brought forth from Justice Goff of the state supreme court an injunction in which he ruled that any strike called to demand the closed shop was in restraint of trade.

NO MORE SWEAT SHOPS.

"No principle has been surrendered by the manufacturers, yet the union may truly claim they have won a great victory for their people. The manufacturers, in turn, have given up the principle of the sweat shop, and those who desire it should share in its burdens."

One article of this victory and one important not only to the strikers but to the nation at large, is the abolition of all contract work at home. Hereafter garments made in New York will be manufactured under sanitary conditions. There will be no more sweat shops.

The rock on which all previous efforts at mutual conciliation have split has been the closed shop. That rock has now been avoided by the adoption of the "preferential union shop" idea, for which Richard D. Brandeis of Boston, formerly counsel for Glavis in the Pinchot-Ballinger hearing, is given full credit. In the articles of agreement this idea is thus described:

UNION CONDITIONS.

"Each member of the manufacturers is to maintain union shops, union shops being understood to refer to a shop where union standards as to working conditions, hours and wages and rates of wages prevail, and where union men are preferred, it being understood that since there are differences of degree as will employers shall observe, the freedom of selection between one union man and another and shall not be confined to any list or bound to follow any prescribed order."

Other articles provide for these more important points:

(1) Electric power free; (2) no work at home; (3) discipline of any member proved guilty of discrimination among his employees; (4) six days work a week and a weekly day pay; (5) all sub-contracting within shops abolished; (6) nine hours work a day, five days a week and five hours the sixth day (7) the price of pieces work to be agreed upon by a committee of employees and their employer; (8) double pay for overtime.

Cohen concludes his statement with the following declaration, remarkable for one in his position:

"Trade unions are not only necessary but must be guided and strengthened. I have been fighting for what I believed were the rights guaranteed by the laws of the county to my clients."

The settlement of the strike averts crisis on the crowded West Side. With thousands out of work and unable to pay rent, the courts were literally swamped with eviction proceedings.

NO SENATORSHIP FOR HITCHCOCK

PHOENIX, Ariz., Sept. 2.—In an interview published by the Citizen, Postmaster General Hitchcock denied today that he had any ambition to represent the new state of Arizona in the United States Senate. The report is amusing and absurd, he said.

"I expect to continue as postmaster general throughout the remainder of this administration, and it is my ambition before its close to place the postal service on a self-sustaining basis for the first time in its history."

UNCLE SAM WILL NOT PAY FOR REPAIRS ON AUTOMOBILE

WASHINGTON, Sept. 2.—Army officers who use automobiles in the line of duty, when established transportation facilities are available, cannot expect the government to foot the bills unless the automobile is necessary for transportation of troops or supplies.

The comptroller of the treasury refused today to pay the bill for repairs to a motor car used by Colonel Scott, superintendent of the military academy at West Point and laid down a ruling for future cases.

COMPTROLLER ASKS STATEMENT FROM THE NATIONAL BANKS

WASHINGTON, Sept. 2.—The comptroller of the currency called on national banks today for a statement of their condition at the close of business September 1.

SOUTHPOW GREGG IS LONG FLY TO PERRY BIG PUZZLE TO ANGELS

Erratic Side-Wheeler Gives
Five Passes; Fans Eight
in a Row.

PORLAND, Sept. 2.—Portland won today, 2 to 0, against Los Angeles. Gregg's in and out pitching was the feature. He walked five men, but allowed no hits and struck out eight in a row in the sixth, seventh and eighth innings. Bapso scored from second when Daley booted Casey's single. Sheehan singled, took second on a passed ball and came home on Ort's hit.

Gregg, according to Umpire Van Hultron and local authorities, has established a world's record in striking out eight men in succession with a total of fourteen strike outs in a no hit, no-run game. The score:

GAS SERVICES FREE

During the summer months we will extend our gas pipes into your home and connect up your gas stove free.

All we ask in making this outlay is that your kitchen have a double oven range with four top burners.

We will sell at cost gas tables lamps or any other gas fixtures with mantle attachments, and we will install the first mantles free and keep them renewed one year free.

Order now. If you all delay till the hot weather comes then some will have to be kept waiting.

Fresno Gas and Electric Company, Fresno District, 100 J Street, Tel. Main 36.

BALL PLAYER DEPARTS.

Second baseman Del Carlo of the Brunswicks left yesterday morning for San Francisco, where he will make his future home. While here Del Carlo made many friends who were lost to him at his departure. He was employed in the downtown offices of the Southern Pacific Company, playing ball on Sundays. He was a clever second baseman and his shoes will be difficult to fill.

EDITOR KILLED IN FIGHT.

KEYTERVILLE, Minn., Sept. 2.—Charles P. Vandiver, for twenty-eight years editor of the Charlton Courier here, is dead as result of injuries he sustained in a fight with John Cunningham Jr., here on Aug. 5. Vandiver had been a candidate for county recorder.

Cunningham and his father opposed him. The editor criticized them in his paper and the fight followed. There has been no arrest.

ROBBED BY A WOMAN.

SALT LAKE, Sept. 2.—J. D. Diehl, a traveling jewelry salesman of Denver, complained to the police today that he had been drugged by a woman and robbed of jewels to the value of \$10,000 last night. The accused woman has not been found by the police.

Doings In The Sporting World

UHLAN'S RAPID RISE
IN THE TROTTING WORLD

Horse That Made Record of 1:08 1/4
Readily Was Eligible to 1:00
Class in 1908

WHEN Uhlán stepped a mile at Cleveland recently without a wind shield in 1:08 1/4, he became in reality the two minute trotter which the harness world has been anticipating for the past decade. This performance, within a quarter second of the mark set by Lou Dillon with the artificial aid, eclipses in quality her mark of 1:08 1/4, which has stood since 1903. Critics who were present at North Randall say the handsome black gelding has not reached the limit of his speed and predict a lowering in natural time of the record of the trotting queen and that without the windbreak. Uhlán's recent feat of reeling off a mile to wagon in 2:01, also without wind shield, gives to Mr. Billings' trotter the two most coveted honors of the trotting turf. That the New York sportsman, formerly a Chicagoan, drove Uhlán in the first of his record breaking performances, is an honor merited by his devotion to the sport which has prompted him to spend the money necessary to secure performers which possessed the ability of Lou Dillon and Uhlán. That Mr. Billings personally will take another tilt at "time" behind the new champion is the prediction of those who know his love of the sport. It is worthy of note in considering the future of Uhlán that Mr. Billings does not campaign his valuable string for profit. Therefore, if the great gelding possesses any greater possibilities for time annihilation they will receive every consideration unhampered by contemplation of what the earning capacity of the horse might be for exhibition purposes.

Uhlán's rise to fame has been rapid. Less than two years ago he started in his first race in the 2:40 class at Boston and a little more than a month later gained a record of 2:07 1/4 at Columbus. He trotted four races in this first campaign, winning them all. In his first race last season at the Cleveland grand circuit meeting his record dropped to 2:03 1/4 and two weeks later he was finishing heads apart with Hamburg Belle in 2:01 1/4 after having trotted a long mile on the outside of the mire from start to finish, with a little the worse of the start. When the two matchless trotters met again a fortnight afterward in Boston, Uhlán defeated Hamburg Belle decisively on slow track in 1:04 1/4 and 2:03 1/4. He could outscore her, outfinish her and outfoot her at every spot and place, and Mr. Billings after seeing this performance paid \$15,000 for the horse.

Starting to beat his record at Columbus shortly after this race, Uhlán trotted in 2:02 1/4. This was his last appearance in public until Mr. Billings drove him a mile in 2:01 to wagon at Cleveland.

Charles Sanders, a Boston merchant, who bought the horse from his breeders, A. H. Parker of Bedford, Mass., developed his speed in amateur races over the Revere track. He was trained and driven in his public races last year and in 1908 by Robert Proctor, a Boston trainer. When Mr. Billings bought Uhlán he passed into the hands of Charles Tanner, a pupil of John Spain, who had long had charge of Mr. Billings' mafines and speedway trotters and who is known as one of the best conditioners and caretakers in the country.

Uhlán's sire, Bingen, 2:06 1/4, is a son of May King, 2:20, by Electresser Blonde, the dam of Uhlán was by Sir Walter, Jr., 2:18 1/4, a grandson of Aberdeen, formerly owned by Major B. T. Dickinson of New York, who by a singular coincidence also owned the dam of Hamburg Belle. The grandmother of Uhlán was a Kentucky saddle mare by Black Eagle, a Morgan bred horse.

The best time ever made by any other trotting horse without the aid of a wind shield was the 2:01 of Lou Dillon at Memphis on Nov. 11, 1904. Her record with the aid of a wind shield was 1:08 1/4. Performances made in this way are no longer recognized by the National Trotting association.

More Crack Infields Than Outgardens In Big Leagues

Photos by American Press Association.

Stars of the Two Greatest Infields in the Game Today

DID you ever notice that there are more crack infields than there are outfields? If you have time look over the makeup of the big league teams and you will see that it is so. It seems to be easier to find infields who as a group measure up to the standard than to find three such outfields on one club, although it takes four men to make an infield and only three to make an outfield. True, the men in the inner circle have more chance to show what they can do, but the fine work in the outer garden, such as cutting off long hits and throwing, doesn't appear even relatively as often as fancy infield work.

There are only three outfields in the country today which for covering

ground, throwing and speed in getting after long hits are up to the A1 grade. They are the Detroit in the American and the Chicago Cub and the Pittsburgh Pirates in the National League. Notwithstanding that the Pirates bump the bumps this season, Leach, Clarke and Wilson are three grand outer gardeners. In Schulte, Hofman and Scheckard the Cubs have a trio that are hard to improve on. Detroit has the best of the lot. Cobb, Crawford and McIntyre are all pipers. Davy Jones is also a good one to fill Crawford's or McIntyre's shoes. The Boston Red Sox have a working good outfield in Speaker, Hooper and Lewis and one that is improving all the time.

Now take the infields. The Philadelphia Americans have a dandy in

Davis, Collins, Barry and Baker, and so have the Cubs in Chance, Evers, Tinker and Steinfeldt. The two infields can hit, run bases and have a defense that is near to being air tight.

After looking over the two infields carefully one finds that the Cubs have a shade over the Athletics. Take it at first base. Chance lays it over Davis like shoes over plates. The latter is getting old and slow, but is still a good hitter. Chance will hold him even as a hitter and beat him to a frazzle at every other angle. Collins and Evers at second are two of the greatest in the game. Collins is batting harder than Evers this season, but the Trojan is there with everything. He is the smartest player in the game. Outside of batting Evers has it in every way

on Collins. At shortstop Tinker is better than Barry in every department. Baker, the Athletics' third sacker, is a young man and a better player than Steinfeldt. Taken as a whole the Cub play better together than does the Athletic quartet, so we will have to hand it to the Cubs as the greatest infield in the game today. It is probably the most famous that ever appeared on the diamond.

Merle, Doyle, Bridwell and Devilin of the New Yorks are a combination not as evenly balanced in ground covering ability as could be wished, the greater ability being on the left side. Cincinnati's infield is well balanced and so is that of the Phillies. Pittsburgh's always has lacked finish at first base, but is a hummer otherwise.

Brooklyn's is fast individually, lacks stability as a whole, but is likely to improve.

The New York Americans' infield is also out of balance, having a preponderance of ability on the right side. Cleveland, is stronger in the middle than on the extremes. The St. Louis Browns' main strength is on the left. The Chicago White Sox have a good infield. The addition of McConnell and Ford, recently secured from Boston, has braced it up wonderfully.

Stahl, Gardner, Wagner and Engle are powerful and a fast four, but without the class of the Cubs or Athletics.

Were there one twelve club league nowadays it is probable that more high class infields could be put together than were found fifteen years ago.

DISCARDS HIT WELL IN SMALLER LEAGUES

But Batters Are Players Who Have Failed Duties in the Past Set

Gives us more hitting and find more heavy hitters, say the baseball fans. But where will the willing to please major league pilot find them? We cannot get other big league teams to part with their stars unless he greatly weakens his own club by giving away a few of his shining lights. Leaving the two big leagues out of the question, the managers would naturally turn to the Class A circuits for heavy hitters to strengthen their sides.

What would be the result? The two big hitters in the Eastern League are Third Baseman Corcoran of Buffalo, Outfielder Kelly of Newark, Third Baseman Hains, Pitcher of Rochester and Catcher Slattery of Toronto. Slattery was tried by three American League clubs and found wanting. Hains is a veteran who played about seven years in the minors before landing a berth with Brooklyn. Corcoran is the fresh

youngster.

The American association has stars are more numerous, including Jimmy Barrett, Murray of St. Paul, Corcoran, Jimmy Williams, Charley Hickman, Tom McCarthy and Charley Carr. Barrett is out of the question on account of his age and propensity to have his legs go back on him. Hickman, Williams and Carr are not to be considered either. That leaves McCarthy, Cravath and Murray. The first two have been tried before and found lacking, but they have improved a lot since being turned back to the American association. Murray, who is hitting .361, seems to be the best hitting outfielder in the American association, but for some reason or other no club seems to be offering any money bids for him. Others close to the .300 mark in the American association are Otto Clymer, Jack Haydon and Dave Altier. Haydon might be worth considering, but no one would ever think of buying either of the others.

They have a big collection of .300 hitters in the Western League. Jenkins, with Louisville last season, leads with an average of .351, having made 120 hits in eighty-seven games. It seems as if he should be in demand. Others hitting far above .300 are Cole and Seall, turned back by Comiskey; Third Baseman Reilly, Catchers Towne and Miller, with Lee Qualls, once an infielder with the White Sox; Paul Cobb, Ty's brother, and McAlensee, starry of Youngstown and the Browns. Qualls and Jenkins are the real hitters of the circuit, and they have some pitchers in that circuit, for Orman released Shotten, who led the G. and P. last season, because he couldn't hit. Jenkins "gained" Lefty Davis, formerly of the Yankees and Columbus, for the same reason.

In the Southern League Joe Jackson, formerly tried by Connie Mack, and Messenger, given a trial by Chicago last season, are the best—that is outside of the gigantic Mack, who never would do in any major league. Jackson has already been purchased, while Messenger may receive another trial.

SWEDISH SKATER AFTER MENARA.
Having won all the laurels Europe has to offer in the line of skating, Moje Ohlson, champion skater of Sweden for successive years and holder of the European championship in 1907 and 1908, has come to America to seek new honors. Ohlson has secured employment in Moline, Ill., until winter comes and the skating season begins. He has received invitations from both the Chicago Athletic and Illinois clubs, but has not decided with which organization he will affiliate. Another question which is undecided in Ohlson's mind is whether to enter the professional field or remain in the amateur class. It was his purpose in coming to America to make capital of the fame he has achieved in Europe, but the thought that he would be barred from future contests in Europe should he give exhibitions in this country as a professional makes him hesitate to pursue this plan.

NAT CARTMELL, CRACK SPRINTER.

Nat Cartmell, the former sprinter of the University of Pennsylvania, who turned professional last spring, has been showing his heels to England's crack runners for the past few months. In fact, Cartmell appears to be in better form now than ever. Recently he defeated C. H. McRoy, the former champion, in a special 100 yard sprint race in London. Cartmell was the winner in 10.4 seconds. He has been abroad since last May, but intends to return to America shortly.

HOW QUICK CRICKET, NOW POPULAR ABROAD, IS PLAYED

Many people have claimed that cricket was too slow for Americans, but in the new English game of quick cricket is found all the action that can be desired, along with the advantages and fine points of the cricket game. Quick cricket is a combination of tennis and cricket. The double wicket is to outdoor use or for a passenger deck on a large steamer, a covered court, large rooms and hotels as well as for home lawns and spaces where ordinary tennis is played. The length of the creases varied from fifteen yards upward and the width from five yards upward.

LITTLE MEN PREDOMINATE IN BASEBALL.

"It seems that big men haven't a show in baseball any more," said Hughie Jennings lately while discussing the new men who have broken into the major league ranks in the last two years. "The new men all seem to be small in stature. There is not a demand for big men or the big men have ceased to excel at the game. The little fellows are crowding the big ones out."

"I remember when little men did not have much of a show in the game, when a prejudice seemed to exist against them. I can easily recall the time when to be a first baseman a man had to be tall. If he wasn't 'good height' you find many men of medium height playing the initial sack today. Everybody gets a show now, and they don't ask how tall he is, just so he delivers a good article of ball."

Largest Scores 200 to 10.
The largest score on record was made in Buffalo in the sixties. Nine-
ers, 200; Columbia, 10.

Long Golf Drives.
Edward Blackwell has perhaps the majority of long drives to his credit. In 1902, playing with a "uttle" ball, he drove 386 yards from the seventeenth tee at St. Andrews. That same year he reached the fifth hole at St. Andrews, distance 520 yards, and on the way back, the fourteenth hole, distance 516 yards, in two strokes. Although no authentic records are available, it is generally reckoned that these four shots are in the opposite direction, so that the wind could not affect the total distance of the four shots—1,048 yards.

Can Manager Sit on Bench?
The Southern League has now got into a wrangle as to whether or not a manager may sit on the players' bench. Manager Frank of the New Orleans team refused to leave the bench when ordered to do so by the umpire. Player and salary limitations

BASEBALL'S RICHEST MAN,

Howers Said to Belong to Charley Comiskey, Owner of White Sox.

Barney Dreyfuss, owner of the Pittsburgh National league club, had to pay to see his world's champions play the Brooklyn team recently at Washington park. Barney walked up to the press gate and started to push through the turnstile.

"Where is your ticket?" shouted the ticket taker.

"I am Barney Dreyfuss, who owns the Pittsburgh club," declared the magnate.

"I don't care who you are. Give me a ticket or show me a pass or you don't get in," replied the ticket taker.

Barney then searched his pocket and, not being able to find his pass or a ticket, he walked up to one of the windows and, shoving in a dollar bill, said to the ticket seller:

"Will you please sell me a ticket to the grand stand?"

After the game Dreyfuss went to Charley Eubanks and said:

"Charley, I had to pay my 75 cents to see my team play, but it was worth the money to see them beat your second division club."

FALSE REPRESENTATIONS MADE ABOUT RICHTER BY BREWERY MEN

Their Action: Denounced By Federated Trades and Labor Council.

Cooks and Waiters Request Employers to Give Them One Day a Week.

The brewery workers were severely denounced by the Federated Trades and Labor Council last night for making false representations to that body regarding conditions at the bottling works of Jacob Richter. Some time ago the brewery workers went before the council and complained that Richter was not living up to his agreement with them. A committee of three delegates to the council from other unions, was appointed to investigate into the matter and make a report.

The report was made last night and it the committee stated that Richter was living up to every article of his agreement and that the brewery workers had been making false representations. After resolutions of condemnation had been passed against the brewery workers, the council instructed the secretary to write a letter of apology to Jacob Richter for distributing him.

WANT SIX DAY WEEK

Six day week for all union cooks and waiters in the city of Fresno, as requested at a recent meeting of the cooks and waiters' union, was given the unanimous endorsement of the Federated Trades and Labor Council at its regular weekly meeting held last night at Union Hall.

The members of the union assert that Fresno is almost the only place in the country where cooks and waiters are forced to work seven days. In all other places they declare six days a week is all that is required of these people. At a recent meeting of the union, it was decided to ask all restaurant owners to grant a six day week and the resolution passed there was given the endorsement of the Federated Trades and Labor Council.

Owing to the fact that cooks and waiters in Fresno are forced to work seven days a week it is asserted that it is very difficult to get cooks or waiters when they are needed.

ATTACK LAUNDRIES

Inasmuch as the laundry workers have announced that their employers will not allow them to participate in the Labor Day parade on Monday, the Federated Trades and Labor Council last night passed a resolution to put all laundries that refused to allow their employees to participate in the parade, in the unfair list. The eight hour demand recently made by the laundry workers was also endorsed last night.

The request recently made by the retail clerks that store proprietors in the city do not open their places of business before 7:30 in the morning was fully endorsed last night by the Federated Trades Council.

The council went on record as favoring a Union Labor Day at the Fresno county fair next October and the president called on all the delegates to come back to their respective unions this week and get them to take action on the matter. Some place will in all probability be made toward observing the day at the fair grounds in a proper manner.

POLICE WITNESS IS ACCUSED OF PERJURY

Secretary W. F. Little of I. W. W. Asks Arrest of Ira Hapgood.

A charge of perjury has grown out of the trial of the four I. W. W. members, one of which was convicted Wednesday by a jury in the police court. W. F. Little, secretary of the local branch of I. W. W. and one of the men arrested, appeared before Judge Briggs yesterday and swore to a warrant for the arrest of Ira Hapgood, one of the prisoners for the prosecution at the recent trial. The charge is perjury, Little alleging that Hapgood gave false testimony against the four I. W. W. members.

F. Little, the only I. W. W. man who was convicted, is now serving a sentence of twenty-five days in jail. W. F. Little and William Flannagan were discharged, as the jury failed to agree in their cases. Victor Vogel was acquitted by the jury. With the arrest of Hapgood for perjury, the trouble between the police department and the I. W. W. will probably be reopened.

BERT VOGEL ENTERS STOCK AT BIG FAIR

Bert Vogel, the last stockman left for Sacramento last night in charge of a caravan of mules and cattle. Vogel will exhibit the stock at the coming state fair. Last year he won first prize with his mules at the Fresno county fair. Vogel has entered his stock in four divisions, the mules in the two-horse, four-horse and six-horse teams and the cattle in the Holstein class.

INVADES ARIZONA ON MINING DEAL

Thomas Doyle, sergeant of police, has been granted a thirty days leave of absence by Chief Shaw. Accompanied by Frank McLaren, ex-police-man, Doyle left Thursday night for Arizona where he will enter operations on a gold mine in which he holds one-half interest. The others in the deal are Chief Shaw, John Siehring, Frank McLaren and R. Kaelber, all of this city. Twenty years ago Doyle was a miner in Mariposa county.

LAW AND MAKE UP; CHARGE DISMISSED

Judge Briggs yesterday dismissed the charge of failure to provide for his family, a felony, against Fred Johnson, a janitor. His wife appeared and went with him in court, but the charge was dismissed.

Judge Briggs dismissed the

NO DANGER OF RAIN ASSERTS FORECASTER OF WEATHER BUREAU

That the rain will not rain was the assertion made yesterday by Forecaster Bonnett of the local weather bureau, despite the fact that yesterday morning there was a threatening sky and a few drops of rain.

"The barometric pressure is low in the southwest," said Bonnett in speaking of conditions. "But I do not think this is any cause for alarm from this weather."

The forecast for today is fair weather and present indications are that the weather will continue fair for some time.

The trace which fell yesterday did not do any damage whatever and all evidences of rain were quickly removed when the sun came out from behind the clouds.

The local weather bureau was kept busy yesterday answering telephone calls from anxious growers, but in every instance assurances of fair weather were given out.

FRESNO HOME OFFERS 3 1-2C FOR SULTANAS

Price Equals That Now Being Paid for Thompsons and Muscats.

Sultanas, Thompsons and Muscats are all on an equal footing at the present time, according to announcements made yesterday on Selsin Row. Offers of 3 1/2 cents for Muscats and Thompsons have been freely made for some time, with Sultanas worth from 3 to 3 1/2 cents. It was asserted yesterday, however, that the Fresno Home Packing Company was offering 3 1/2 cents for Sultanas, and with this price now being offered it is generally believed that other packers will fall in line within a very short while.

It was given out on good authority yesterday that Captain Nevills' crop of raisins, which were sold on Wednesday, were bought jointly by four local packers, namely, Peter Droke, Charles B. Rixford, J. F. Niswander and Rosenberg Bros., and that these four firms will divide the goods among themselves. Rosenberg and Niswander have their own seeder, while the others will do only their own stemming.

1910 KEARNEY CROP IS SOLD TO ARMSBY

Three and One-Half Cents Is Price Paid; Old Crop Is Being Moved.

The 1910 raisin crop on the Kearney estate was sold yesterday to J. K. Armsby & Co. for 3 1/2 cents, according to an announcement made last night. This crop amounts to about 550 tons and is one of the largest single crops in the San Joaquin valley.

The 1909 crop, which was sold to the Rixford Packing Company, is rapidly being moved away and at the present time is being sold by Rixford in any size blocks for 8 cents.

Buyers are out in force in the field at the present time and 3 1/2 cents is freely being offered. These packers who still refuse to pay 3 1/2 cents are not buying. They will admit, however, that raisins are now worth 3 1/2 cents or better.

FIRE DESTROYS FOUR COTTAGES IN FOWLER

Starts From Gasoline Stove; Loss Partly Covered By Insurance.

FOWLER, Sept. 2.—Fire starting at 8 o'clock tonight from a gasoline explosion in a cottage occupied by Mrs. Peters, destroyed four houses, on Fifth street, south of Main. There being no water mains in this district, the flames were fought with buckets and good work was done in confining the flames to the block. Mrs. Peters lost two buildings, her home and a rooming house. A vacant house belonging to Mrs. Margaret Davis was burned, as was also the home of George Fuller. The Fuller family saved most of their household effects, but Mrs. Peters lost nearly everything. Mrs. Peters' loss is estimated at about \$2,000 and Mr. Fuller's at about \$500. Mrs. Davis' loss is not known. All carried insurance.

CITY MAN FAILS OFTEN AT FARMING

WASHINGTON, Sept. 2.—The Department of Agriculture's experts have concluded that the city man may make a living as a farmer but that for several reasons he is more likely to fail. W. J. Spillman of the department of farm management, says that the city man who tries farming contracts a hard proposition and though it is possible for him to make it a success, the result is a failure in the majority of cases.

"Wages in the city have been raised but they have not kept pace with the cost of living," said Spillman. "The city man is being hard pressed to make both ends meet. It is but natural then that he should look toward the country, but as a rule he fails to find it easily ends in failure, because of inability to grasp the technical side of farming."

For bowel complaints in children always give Chamberlain's Colic, Cholera and Diarrhoea Remedy and castor oil. It is certain to effect a cure and when reduced with water and sweetened is pleasant to take. No physician can prescribe a better remedy. For sale by all dealers.

G. W. CARTWRIGHT SAYS GRANGER IS TO LEAVE FOR NEW YORK TONIGHT

Promotor to Complete Final Arrangements for New Interurban Rail.

Drew Declares Fresno Senator Did Not Insurge When He Had Chance.

Local Senatorial Campaign Is Opened by Statements to Voters.

Senator Geo. W. Cartwright has come out as an "insurgent Democrat" and this has stirred up the first skirmish of the local campaign. A. M. Drew, his Republican opponent, comes back with the rejoinder that Cartwright's new attitude implied a revolt against a part of his own party and he wants to know what the senator repudiated in his own party. Moreover Drew says Cartwright showed no inclination to insurge in the last session of the Legislature.

Here's Cartwright's statement:

To the Voters of Fresno County: Many of my political friends have requested me to state my position upon the United States senatorship, and believing that the people of Fresno county have a right to know the position of every candidate upon public questions, I take pleasure in making the following statement:

There is not much difference between an insurgent Republican and an insurgent Democrat. If the Legislature is Democratic, the insurgent Republicans ought to join their forces with the insurgent Democrats in electing the right sort of a Democrat to the United States Senate. If the Legislature is Republican, the insurgent Democrats ought to join the insurgent Republicans in an effort to elect Judge Works, the insurgent nominee.

If elected to the State Senate, I shall consider it my duty to act in accordance with the views above expressed and shall cheerfully perform that duty. Very respectfully,

G. W. CARTWRIGHT.
TERRITORY COME-BACK.

Drew in a come-back, likewise addressed to "the voters of Fresno County," refers to Cartwright's letter as "a bid for the votes of the Republican electors" and points out that when Cartwright had an opportunity to vote for an insurgent Republican senator he did not avail himself of the chance. Drew proceeds:

"Just where does the senator place himself when he admits that he is an insurgent Democrat? An insurgent is one who rises in opposition to civil or political authority or who is insubordinate or rebellious. An insurgent Democrat, I therefore take it, would be a Democrat who is in a state of insubordination or rebellion against the established party principles or government. Just what principles of the Democratic party in California is the senator 'insurgizing' against? If he is an insurgent Democrat, just what kind of a Democrat is he? Surely not a Democrat for votes or office only."

"The Republican party is the dominant party in California by a probable majority of from \$6,000 to 10,000 votes, and in Fresno county by about 2,000 votes. The Republican party in the state is dominated by the Progressive element, and is and has been for many years in this country dominated by this element. If it is true that there is 'not much difference' between the parties as now existing, why do not good citizens join with the dominant party to elect the men of this party who will certainly represent their sentiment?

"Why should the dominant party reject its own candidates nominated by the people and go over to the minority party and elect its candidates because there is 'not much difference' between them?" Does this suggest a question where the tall with a fine ego, aspire to—was the dog? The claim of the senator that he is an 'insurgent Democrat' may be justified by his record, an instance of which is the following:

"When the capital removal bill was before the Legislature, Ia. bill instigated by Herrin and his machine for the sole purpose of punishing Sacramento for giving 4,000 majority to Mr. Bell for governor, Senator Cartwright very conveniently absented himself (see page 1219 Senate Journal 1907), that he might not jar Mr. Herrin's feelings by voting against it.

"When the election of United States senator was before the 1909 session, a straight, clear-cut proposition was made by the insurgent Republicans to the Democratic caucus that the Democrats elect any prominent insurgent Republican in the state as candidate for United States senator, and that the insurgent Republicans would unite with them in voting for said candidate. This proposition was, peremptorily voted down by the Democratic caucus.

"I could cite other instances where Senator Cartwright failed or refused to co-operate with those who protested against Herrinism in our State Legislature, but for the present will forgo.

"Senator Cartwright's conversion to insubordination or rebellion against his party principles is supported by some of the facts at least, although he may never have been suspected of it before he made his public declaration."

"When the capital removal bill was before the Legislature, Ia. bill instigated by Herrin and his machine for the sole purpose of punishing Sacramento for giving 4,000 majority to Mr. Bell for governor, Senator Cartwright very conveniently absented himself (see page 1219 Senate Journal 1907), that he might not jar Mr. Herrin's feelings by voting against it.
